Queering Reproduction Achieving Pregnancy In The Age Of Technoscience:

Queering Reproduction Laura Mamo, 2007-09-03 Originally developed to help heterosexual couples fertility treatments such as in vitro fertilization and sperm donation have provided lesbians with new methods for achieving pregnancy during the past two decades Queering Reproduction is an important sociological analysis of lesbians use of these medical fertility treatments Drawing on in depth interviews with lesbians who have been or are seeking to become pregnant Laura Mamo describes how reproduction has become an intensely medicalized process for lesbians who are transformed into fertility patients not or not only because of their physical conditions but because of their sexual identities Mamo argues that this medicalization of reproduction has begun to shape queer subjectivities in both productive and troubling ways destabilizing the assumed link between heterosexuality and parenthood while also reinforcing traditional heteronormative ideals about motherhood and the imperative to reproduce Mamo provides an overview of a shift within some lesbian communities from low tech methods of self insemination to a reliance on outside medical intervention and fertility treatments Reflecting on the issues facing lesbians who become parents through assisted reproductive technologies Mamo explores questions about the legal rights of co parents concerns about the genetic risks of choosing an anonymous sperm donor and the ways decisions to become parents affect sexual and political identities In doing so she investigates how lesbians navigate the medical system with its requisite range of fertility treatments diagnostic categories and treatment trajectories Combining moving narratives and insightful analysis Queering Reproduction reveals how medical technology reconfigures social formations individual subjectivity and notions of kinship

Queering Reproductive Justice Candace Bond-Theriault, 2024-08-06 The futures of reproductive justice and LGBTQIA liberation are intimately connected Both movements were born out of the desire to love and build families of our choosing when and how we decide Both movements are rooted in broader social justice liberationist traditions that center the needs of Black and brown communities the LGBTQIA community gender nonconforming folks femmes poor folks parents and all those who have been forced to the margins of society Taking as its starting point the idea that we all have the human right to bodily autonomy to sexual health and pleasure and to exercise these rights with dignity Queering Reproductive Justice sets out to re envision the seemingly disparate strands of the reproductive justice and LGBTQIA movements and offer an invitation to reimagine these movements as one integrated vision of freedom for the future Candace Bond Theriault asserts that for reproductive justice to be truly successful we must acknowledge that members of the LGBTQIA community often face distinct specific and interlocking oppressions when it comes to these rights Family formation contraception needs and appropriate support from healthcare services are still poorly understood aspects of the LGBTQIA experience which often challenge mainstream notions of the nuclear family and the primacy of blood relatives Blending advocacy with a legal rights based framework Queering Reproductive Justice offers a unified path for attaining reproductive justice for LGBTQIA people Drawing on U S law and legislative history healthcare policy human rights and

The Reproductive Body at Work Verena Namberger, 2019-04-11 The transnational industry surrounding assisted reproductive technology and regenerative medicine is based on the unacknowledged labour of gamete providers surrogates and research subjects and benefits from low labour costs in enabling sectors such as logistics and transport This finding calls for a comprehensive analysis of how the contemporary intersection of neoliberal capitalism and the life sciences in short the bioeconomy capitalises on the body and its reproductive capacities The Reproductive Body at Work uptakes this challenge as it explores the relations between value production labour and the body in one particular realm of the global bioeconomy the South African bioeconomy of egg donation It highlights different forms and dimensions of unacknowledged or precarious human labour that are constitutive for the procurement brokering and circulation of oocytes as valuable resources The analysis illustrates that the respective organisation of value and labour renegotiate what the reproductive body can do which status and roles it is ascribed which cultural and economic values it signifies and how it is experienced and enacted within a matrix of intersectional power relations A theoretically profound contribution to the interdisciplinary debate on New materialism The Reproductive Body at Work will appeal to students and researchers interested in fields such as gender studies medical anthropology cultural studies sociology political economy and science and technology studies

IVF and Assisted Reproduction Sarah Ferber, Nicola J. Marks, Vera Mackie, 2020-12-17 This is the first transnational history of IVF and assisted reproduction It is a key text for scholars and students in social science history science and technology studies STS cultural studies and gender and sexuality studies and a resource for journalists policymakers and anyone interested in assisted reproduction IVF was seen as revolutionary in 1978 when the first two IVF babies were born in the UK and India Assisted reproduction has now contributed to the birth of around ten million people The book traces the work of IVF teams as they developed new techniques and laid the foundations of a multi billion dollar industry It analyses the changing definitions and experience of infertility the markets for eggs and children through surrogacy cross border reproductive treatment and the impact of regulation Using interviews with leading IVF figures archives media reports and the latest science it is a vital addition to the field of reproduction studies This pathbreaking account of the global forces behind the rapid rise of the fertility industry is the first to offer such a truly comprehensive overview of this hugely important topic Sarah Franklin Chair of Sociology University of Cambridge In this compelling overview of one of the most significant technological and social interventions ever developed the cultural and scientific imaginaries of assisted reproduction meet the obdurate histories of

laboratory experiments biological materials and personal quests It is an indispensable read for anyone interested in IVF and assisted reproduction Andrea Whittaker Professor of Anthropology Monash University Reproductive Governance and Bodily Materiality Corinna Sabrina Guerzoni, Claudia Mattalucci, 2022-04-07 Reproductive Governance and Bodily Materiality explores the growing centrality and power of the medical professional and lay practices within the field of human reproduction as they entangle with political economic processes providing examples from multiple countries

Reproductive Technologies as Global Form Michi Knecht, 2012-07 In the thirty five years since the first test tube baby in vitro fertilization and other methods of reproductive assistance have become a common aspect of family life and medicine in affluent nations and increasingly throughout the world How do persons seeking treatment donors and medical experts make use of these reproductive technologies How in crossing borders between nations do they manage to evade legal and bioethical regulations And how do they make sense of these new modes of making kinship against the backdrop of diverse world views and social settings *The Business of Being Made* Katie Gentile, 2015-12-22 The Business of Being Made is the first book to critically analyze assisted reproductive technologies ARTs from a transdisciplinary perspective integrating psychoanalytic and cultural theories It is a ground breaking collection exploring ARTs through diverse methods including interview research clinical case studies psychoanalytic based ethnography and memoir Gathering clinicians and researchers who specialize in this area this book engages current research in psychoanalysis sociology anthropology philosophy and debates in feminist queer and cultural theory about affect temporality and bodies With psychoanalysis as its fulcrum The Business of Being Made explores the social constructions and personal experiences of ARTs Katie Gentile frames the cultural context exploring the ways ARTs have become a complex form of playing with time attempting to manufacture a hopeful future in the midst of growing global uncertainty The contributors then present a range of varied experiences related to ARTs including Interviews with women and men undergoing ARTs A psychoanalytic memoir of male infertility Clinical research and work with transgender gay and lesbian patients creating new Oedipal constellations the experiences of LBGTQ people within the medical system and the variety of families that emerge Research on the experiences of egg donors now central to the business of ARTs and a corresponding clinical case study of successful egg donation The experiences of ongoing failure which is the often unacknowledged for ART procedures How and when people choose to stop using ARTs A psychoanalytic ethnography of a neonatal intensive care unit populated in part with the babies created through these technologies and their parents haggard and in shock after years of failed attempts Full of original material The Business of Being Made conveys the ambivalence of these technologies without simplifying their complicated consequences for the bodies of individuals the family cultures and our planet This book will be relevant to clinicians medical and psychological personnel working in assisted reproductive technologies and infertility as well as academics working in the fields of sociology literature queer and feminist theories and at the intersections of cultural critical and psychoanalytic theories **Queerly**
