Quentin Tarantino David Roche, 2018-08-02 Quentin Tarantino's films beg to be considered metafiction metacommentaries that engage with the history of cultural representations and exalt the aesthetic ethical and political potential of creation as re creation and resignification Covering all eight of Quentin Tarantino's films according to certain themes David Roche combines cultural studies and neoformalist approaches to highlight how closely the films poetics and politics are intertwined Each in depth chapter focuses on a salient feature some which have drawn much attention history race gender violence others less so narrative structure style music theatricality Roche sets Tarantino's films firmly in the legacy of Howard Hawks Jean Luc Godard Sergio Leone and the New Hollywood revising the image of a cool pop culture purveyor that the American director cultivated at the beginning of his career Roche emphasizes the breadth and depth of his films engagement with culture highbrow and lowbrow screen and print American East Asian and European

Quentin Tarantino's *Django Unchained* Oliver C. Speck, 2014-07-31 *Django Unchained* is certainly Quentin Tarantino's most commercially successful film and is arguably also his most controversial Fellow director Spike Lee has denounced the representation of race and slavery in the film while many African American writers have defended the white auteur The use of extremely graphic violence in the film even by Tarantino's standards at a time when gun control is being hotly debated has sparked further controversy and has led to angry outbursts by the director himself Moreover *Django Unchained* has become a popular culture phenomenon with t shirts highly contentious action figures posters and strong DVD BluRay sales The topic slavery and revenge the setting a few years before the Civil War the intentionally provocative generic roots Spaghetti Western and Blaxploitation and the many intertexts and references to German and French culture demand a thorough examination

Befitting such a complex film the essays collected here represent a diverse group of scholars who examine *Django Unchained* from many perspectives

Adaptation, Awards Culture, and the Value of Prestige Colleen Kennedy-Karpat, Eric Sandberg, 2017-09-07 This book explores the intersection between adaptation studies and what James F English has called the economy of prestige which includes formal prize culture as well as less tangible expressions such as canon formation fandom authorship and performance The chapters explore how prestige can affect many facets of the adaptation process including selection approach and reception The first section of this volume deals directly with cycles of influence involving prizes such as the Pulitzer the Man Booker and other major awards The second section focuses on the juncture where adaptation the canon and awards culture meet while the third considers alternative modes of locating and expressing prestige through adapted and adaptive intertexts This book will be of interest to students and scholars of adaptation cultural sociology film and literature

Quentin Tarantino and Film Theory Federico Pagello, 2020-10-20 This book examines a set of theoretical perspectives that critically engage with the notion of postmodernism investigating whether this concept is still useful to approach contemporary cinema This question is explored through a discussion of the films written and directed by Quentin Tarantino largely regarded as the epitome of postmodern cinema and considered here as theoretical contributions in their own right Each chapter first presents key ideas proposed by a specific theorist and then puts them in conversation with Tarantino's films Jacques Rancière's theory of art is used to reject postmodernism's claims about the death of the aesthetic image in contemporary cinema Fredric Jameson's and Slavoj Žižek's dialectical thinking is mobilized to challenge simplistic ideological readings of postmodern cinema in general and Tarantino's films in particular Finally the direct influence of Carol Clover's psychoanalytical approach to the horror genre on Tarantino's work is discussed to prove the director's specific contribution to a theoretical understanding of contemporary film aesthetics

The Performative Representations of Masculinity in Quentin Tarantino's Cinema Justin Russell Greene, 2023-08-22 In this book Justin Russell Greene examines how Quentin Tarantino uses his auteur identity to further cement the masculine tropes of Hollywood and ultimately society through language visual aesthetics and

performative representations of masculinity in his films and media appearances Greene posits that the careful crafting of his auteur persona allows Tarantino to project a consistent version of what it means to be a writer director artist and that through his interview and speeches he reveals the deeper intensions behind the representations his characters present in his films However although he is valorized by audiences media personalities and peers as an artistic genius Tarantino traffics in many of the systemic issues embedded within the United States socio cultural environment Greene argues that although Tarantino promotes a political vision in his films and public appearances that illuminates the restrictions of hegemonic masculinity this is not sufficiently effective at truly disrupting entrenched ideologies about masculinity in U S culture due to how Tarantino hides his critical takes within genre stereotypes Scholars of film studies gender studies and popular culture will find this book of particular interest

Race on the QT Adilifu Nama, 2015-04-15 Known for their violence and prolific profanity including free use of the n word the films of Quentin Tarantino like the director himself chronically blurt out in polite company what is extremely problematic even when deliberated in private Consequently there is an uncomfortable and often awkward frankness associated with virtually all of Tarantino s films particularly when it comes to race and blackness Yet beyond the debate over whether Tarantino is or is not racist is the fact that his films effectively articulate racial anxieties circulating in American society as they engage longstanding racial discourses and hint at emerging trends This radical racial politics always present in Tarantino s films but kept very much on the quiet is the subject of *Race on the QT* Adilifu Nama concisely deconstructs and reassembles the racial dynamics woven into *Reservoir Dogs* *True Romance* *Pulp Fiction* *Jackie Brown* *Kill Bill Vol 1* *Kill Bill Vol 2* *Death Proof* *Inglourious Basterds* and *Django Unchained* as they relate to historical and current racial issues in America Nama s eclectic fusion of cultural criticism and film analysis looks beyond the director s personal racial attitudes and focuses on what Tarantino s filmic body of work has said and is saying about race in America symbolically metaphorically literally impolitely cynically sarcastically crudely controversially and brilliantly
