Send The Light Team And The Evangelical Mission 1890 1975:

American Crusades Jon DePriest, 2018-11-15 American Crusades details evangelical pursuits to unite God's purposes with American empires. It argues that religious motivations contributed heavily to United States governmental policies and built sacred spaces in many attempts to influence American society. These embedded ambitions form the core of Americanism yet somehow remain hidden right in front of our eyes. In the action of caretaking they advanced their understanding of God's demand on their lives and purposes. Evangelical and theologically conservative Americans linked the sacred and secular shaping the ethos of the American people. The terminology of religious thinking quickly sacralized concepts like democracy and capitalism in an attempt to control and use them. Once packaged as a sacred space in need of custody, religious leadership sought to fulfill its kingdom responsibility and secure its future. Eventually a combination of religiously defined secular components coalesced into the term known simply as Americanism. Building on the success of the new nation and supporting the causes of Americanism throughout the world has imprinted a uniquely evangelical construct into the domestic and foreign policy structures of the United States. The shifting landscape of American culture drove evangelicalism into the margins in the 1970s while most scholars think that the decline of religious conservatism in culture meant that secularization controlled foreign policy as well; this is not true. Removed from the whims of domestic politics, Protestant evangelical patterns of action have resisted change in American foreign policy structures. Over time, however, the movement lost its faith distinctives while embedding religious principles in foundations of U.S. foreign policy. This book seeks to produce a reorganized narrative through a critical synthesis to locate white evangelicals' quest to be the foundational voice in America's shaping ideological lineage. **Evangelical Studies Bulletin**, 2002. <https://doi.org/10.1017/S0014180113000011>, 2013-06-01

Directory of History Departments, Historical Organizations, and Historians, 2001. **Send the Light** Jon P. DePriest, 2007. From college campuses and the Student Volunteer Movement to elaborate conferences, Americans pushed for a new commitment to overseas missions around the turn of the century. Fredrik Franson, revivalist and founder of the Scandinavian Alliance Mission, sought to send the Light of the gospel to the entire world. Established in 1890 as an organization to send missionaries to foreign fields, the Mission urged its workers to be culturally sensitive, evangelize, and plant churches. In 1949, the Scandinavian Alliance Mission became The Evangelical Alliance Mission (TEAM). The history of TEAM illuminates a missing component in our understanding of how fundamentalism became embedded in American society. TEAM balanced religious distinctiveness with evangelical conformity, making it both a success and a failure. As an institution, it demonstrated the outcome of visionary fundamentalist leadership and became a standard for successful non-denominational parachurch organizations. But over the same period, TEAM de-emphasized the power of the individual before God and stressed practicality. Bureaucratic structure coupled with increasing political compromises increasingly constrained the evangelical mission through organizational control. While scholars portray a natural inclination of institutions to lose

vision over time TEAM demonstrates how active leadership within the organizational environment channeled the institution down a particular path This study follows a chronological format with allowances for important thematic divergence TEAM s history is filled with dynamic men and women who illustrate change in American culture as well as their work in overseas missions Separate chapters on women s roles after World War I and how China and Japan were affected during World War II bring a personal touch to the pages The final stage of institutional growth and a modern utility for the evangelical mission emerges as TEAM reframed the evangelical mission within the burgeoning Cold War paradigm **Send the Light** Jon P.
