Horace and Seneca Martin Stöckinger, Kathrin Winter, Andreas T. Zanker, 2017-12-04 This volume sets out to explore the complex relationship between Horace and Seneca It is the first book that examines the interface between these different and yet highly comparable authors with consideration of their uvrés in their entirety The fourteen chapters collected here explore a wide range of topics clustered around the following four themes the combination of literature and philosophy the ways in which Seneca's choral odes rework Horatian material and move beyond it the treatment of ethical poetic and aesthetic questions by the two authors and the problem of literary influence and reception as well as ancient and modern reflections on these problems While the intertextual contacts between Horace and Seneca themselves lie at the core of this project it also considers the earlier texts that serve as sources for both authors intermediary steps in Roman literature and later texts where connections between the two philosopher poets are drawn Although not as obviously palpable as the linkage between authors who share a common generic tradition this uneven but pervasive relationship can be regarded as one of the most prolific literary interactions between the early Augustan and the Neronian periods A bidirectional list of correspondences between Horace and Seneca concludes the volume

Flattery in Seneca the Younger Martina Russo, 2024-04-07 Flattery in Seneca the Younger explores the discourse of flattery in Seneca's philosophical texts and analyses the extent to which Seneca developed a theory of adulation Martina Russo maps a phenomenology of flattery tracing its external manifestations in Senecan philosophy The personal practice of flattery displayed in the *Ad Polybium* and in *De clementia* along with the distant exempla of flattery represented by Seneca and with the theorization of adulation indicates the range and the complexity of strategic flattery during the Julio-Claudian dynasty Furthermore it is argued that Seneca emerges not only as a practitioner of flattery but also as a theorist of it While many writers tarnished their reputation by giving in to flattery Seneca was among the few who not only accepted flattery but also advocated it as an essential tool in his own times Nevertheless in Seneca's philosophical prose a constant tension emerges whereas flattery is politically acceptable as an instrument to cope with the absolute power embraced by the princeps the sapiens wise and the proficiens would be wise should be careful because flattery can seriously compromise their path to wisdom By analysing the theory and practice of flattery Russo discusses how passages permeated with the most blatant flattery can be read on a new level by viewing Seneca's philosophical prose as an extended exercise in symbolic projection and figured speech It becomes possible to disclose traces of political criticism behind the façade of the most

well as mental weaknesses is omnipresent in ancient literature misconduct wrongdoing failure and experiences of contingency are anthropological phenomena Ancient ethics epistemology and natural philosophy have developed different theoretical approaches and guidelines on how to act and how to overcome all kinds of problems Christian theology on the other hand has explained moral failure as a symptom of original sin comparing decline and destruction to a burden from which mankind is relieved only at the end The contributions explore how ancient philosophical texts both pagan and Christian explain conceptualize and integrate the myriad manifestations of human fallibility into the different philosophical schools The focus is on anthropological ontological and theological concepts that analyse and reflect human fallibility as well as on the textual and linguistic representation of the phenomenon in ancient literature Several contributions in the volume explore literary texts that discuss or illustrate the philosophical dimension of fallibility such as satire s or tragedy s often exaggerated depiction of human weakness
