Separation Individuation Theory And Application:

Separation-individuation Joyce Edward, Nathene Ruskin, Patsy Turrini, 1981 The authors bring to the attention of mental health professionals the contribution of Dr Margaret M Mahler to contemporary psychoanalytic development theory They describe the essential features in the complex developmental sequence termed separation individuation Five case studies are presented in detail that serve to emphasize the practical application of Mahler's work to treatment Implications for broad social planning and professional understanding of child development are drawn and discussed Provided by publisher

Clinical Application of Mahler's Separation-individuation Theory to Understand the Impact of an Elderly Parent on a Middle Aged Child Deanna Zoff Gottschalk, 1983

Self-in-Relationship Psychotherapy Augustine Meier, Micheline Boivin, 2022-07-29 In this innovative book the authors set out their theory of Self in Relationship Psychotherapy SIRP advocating for the integration of relational self and physical intimacy needs in the conceptualization and treatment of psychological problems placing human needs at the center of treatment This marks a shift in how psychological and relational problems are understood currently being perceived in terms of affects cognitive processes and behaviors Using numerous illustrations from their own clinical practice Meier and Boivin contend that this understanding overlooks the pivotal role that needs play in all aspects of peoples personal lives and relationships Children adolescents and adults do not live primarily from feelings and thoughts but from basic psychological and relational needs such as wanting to be in a meaningful relationship having the autonomy and freedom to make decisions about their lives experiencing being competent being regarded as a significant and important person and experiencing emotional intimate and sensual and or sexual connections By taking such an approach this book stands out among other books on psychotherapy theories Authored by two seasoned psychologists who have provided therapeutic services to children adolescents and adults for 40 years this book comprises the foundational theory for practicing Self in Relationship Psychotherapy making it of interest to graduate students clinicians in training and practicing psychologists social workers and psychotherapists alike

Personality Development In Adolescence Eva Skoe, Anna von der Lippe, 2005-07-22 The formation of identity in adolescence is the most central concept in psychological and sociological studies of young people Most theories to date assume that adolescents share the same conditions under which their identities are formed *Personality Development in Adolescence* is a collection of work by leading researchers that considers different contexts affecting personality and identity development Three main contexts are considered cultural family and life span development Of central importance to developmental psychologists this collection will also be valuable to social workers teachers nurses and all those whose work involves young people

Clinical Manual for the Psychiatric Interview of Children and Adolescents Claudio Cepeda, Lucille Gotanco, 2016-10-17 The psychiatric interview is the foundation of the psychotherapeutic process and is critically important to establish trust elicit useful responses assess patient behavior and psychopathology and establish treatment goals and

plans Building on the success of its predecessor a highly regarded guide to interviewing young patients and their families Psychiatric Interview of Children and Adolescents has been thoroughly updated and painstakingly revised to address emerging issues and evolving treatment strategies in an accessible down to earth and comprehensive style and structure The book retains its comprehensive coverage of the principles of interviewing use of the AMSIT model for mental status examinations and evaluation of both internalizing and externalizing symptoms as well as its coverage of neuropsychiatric assessment psychiatric formulation comorbidities resistances and countertransference Additional features either notable or new to this book include The importance of diagnostic and therapeutic engagement in establishing trust with the patient and family and techniques for forging a positive emotional connection which the authors view as an essential responsibility for the clinician and a linchpin of successful practice A new chapter on the psychiatric evaluation of preschoolers and very young children which recognizes that assessment cannot be conducted based solely on adult report and which presents the multiples model multiple sessions multiple informants multiple experts multiple modes of assessment multicultural approach and multiaxial emphasis Expanded coverage of bullying including cyber bullying which has a pervasive and potentially pernicious effect on young people steeped in social media Recognition both throughout the book and in a separate chapter on family assessment that behavior problems in a child or young adult cannot be understood without the relational context of the family and that any family member s problems are best understood as manifestations of dysfunctions within the broader family unit Expanded coverage of the factors and issues involved in evaluating children and adolescents from special populations including those with neurodevelopmental disorders or intellectual disabilities those who are disadvantaged displaced or victims of discrimination and those with posttraumatic stress disorder related to terrorism or burn trauma The book s instructional aims are enhanced by the use of carefully chosen and compellingly crafted clinical vignettes that illustrate vital concepts and techniques and key points at the end of each chapter help the reader identify and remember the most important material Psychiatric Interview of Children and Adolescents will help clinicians master the skills and attain the insight they require to accurately assess and effectively treat this most vulnerable of patient populations

Object Relations Theory and Self Psychology in Soc Eda Goldstein, 2010-07-06 Object Relations and Self Psychology are two leading schools of psychological thought discussed in social work classrooms and applied by practitioners to a variety of social work populations Yet both groups have lacked a basic manual for teaching and reference until now For them Dr Eda G Goldstein s book fills a void on two fronts Part I provides a readable systematic and comprehensive review of object relations and self psychology while Part II gives readers a friendly step by step description and illustration of basic treatment techniques For educators this textbook offers a learned and accessible discussion of the major concepts and terminology treatment principles and the relationship of object relations and self psychology to classic Freudian theory Practitioners find within these pages treatment guidelines for such varied problems as illness and disability the loss of a significant other and such special problems as

substance abuse child maltreatment and couple and family disruptions In a single volume Dr Goldstein has met the complex challenges of education and clinical practice **Applications of Existential Psychology** Zoltán Kőváry,2024-12-30 The second in a two part set this volume offers a detailed examination of the application of existential psychology This book begins by looking at the *conditio humana* the most important topics of existential psychology including anxiety freedom choices authenticity suffering and meaning creativity togetherness time and death It then moves through the practical application of existential psychology in the context of dreams research pathology and therapy Examining key theories models and research the volume offers a fascinating overview of how the disciplines of art philosophy literature science and theology contribute to a deeper understanding of personal self knowledge and a person's sense of purpose This unique transdisciplinary approach demonstrates how readers can apply philosophical historical and artistic aspects of existential psychology to their lives The book concludes by considering the role of existential psychology in the present Going beyond the questions of therapy and counselling that typically make up the study of existential psychology the book offers the ultimate introduction for students and scholars of this fascinating and deeply rooted discipline It may also interest professionals working in related fields **Attachment and Dynamic Practice** Jerrold R. Brandell,Shoshana Ringel,2007-03-06 Contemporary attachment theory both enriches our understanding of human development and informs clinical practice Examining the relational bonds between young children and their caregivers it traces its origins to several scientific and social fields most notably psychoanalysis social work behaviorism ethology evolutionary theory and biology The first portion of this book examines attachment theory and its relationship to other psychodynamic theories of development and then discusses the landmark contributions of John Bowlby the father of modern attachment theory The section concludes with a detailed summary of research on attachment highlighting the work of Mary Ainsworth Mary Main Allan Sroufe and Peter Fonagy The second portion focuses on clinical applications with children adolescents and adults Brief vignettes and lengthier case illustrations consider a verity of attachment disorders and treatment approaches paying special attention to clinical method and technique process dimensions and transference and countertransference phenomena Cases are set in a range of treatment venues such as college and family counseling service community mental health centers and private practice and involve an ethnoculturally and clinically diverse clientele *Applying Developmental Art Theory in Art Therapy Treatment and Interventions* Beth Gonzalez-Dolginko,2021-07-28 Applying Developmental Art Theory in Art Therapy Treatment and Interventions Illustrative Examples through the Life Cycle weaves clinical applications of object relations based art therapy with the Kestenberg Art Profile to understand art from a developmental perspective with the intent of applying this knowledge to support best art therapy practice The book starts by defining object relations based art therapy and introducing the Kestenberg Art Profile Chapters blend psychological theory Freud Erikson Piaget and developmental art theory DiLeo Gardner Kellogg Levick Lowenfeld and Brittain and Rubin with case illustrations that offer a focus on applying

typical developmental theory and art therapy with children adolescents and adults who have varying needs Examples include art from people throughout the life cycle with histories of trauma in the following areas sexual physical and emotional abuse terrorism grief and medical illness war natural disasters and substance abuse There is further discussion on neurological indicators family issues and the use of materials and techniques viewed through a developmental lens Ideal for creative arts therapists educators and students the book will also stand out as a supplementary text for developmental theorists and educators art educators and a range of mental health professionals

Transforming the Legacy Kathryn Karusaitis Basham, Dennis Miehl, 2004-10-27 To serve the increasing numbers of individuals who have survived interpersonal and domestic violence or as refugees have sought asylum from political violence armed conflict or torture *Transforming the Legacy* presents an innovative relationship based and culturally informed couple therapy practice model that is grounded in a synthesis of psychological and social theories This unique couple therapy model encompasses three phases of clinical practice Phase I entails a process of establishing safety stabilization and a context for changing legacies of emotional sexual and or physical abuse Phase II guides reflection on the trauma narrative The goal of phase III is to consolidate new perspectives attitudes and behaviors Within these phases the model illustrated with rich case studies focuses on specific issues including intersubjectivity between the client and clinician such as transference and countertransference vicarious traumatization and racial identity development intrapersonal interactional and institutional factors the role of the victim victimizer bystander dynamic in the couple and therapeutic relationships preserving a locus of control with clients flexibility in decisionmaking regarding clinical processes and specific practice themes such as the composition of a couple the role of violence parenting sexuality affairs dual diagnoses and dissociation A dramatic departure from formulaic therapeutic approaches this biopsychosocial model emphasizes the crafting of specific treatment plans and specific clinical interventions to show how couple therapy can transform the legacies of childhood traumatic events for a wide range of populations including military couples and families gay lesbian bisexual transgendered couples and families and immigrant and refugee couples and families This thorough attention to issues of cultural diversity distinguish *Transforming the Legacy* from the current literature and make it an invaluable resource for clinicians in a wide range of professional disciplines
