Sermons You Can Preach W. Herschel Ford, 1983 For pastors and Bible students alike here is a compendium of Ford's Simple Sermons that have proved meaningful for so many This book is four volumes of sermons in one *UnCommon Preaching* Susan Cartmell, 2015-07-24 There is a spiritual hunger in the world today Many people are seeking answers to life's hard questions Many people come to church seeking inspiration help for personal problems or faith's perspective on life They come seeking things you cannot find in a search engine The church has exactly what they need but too often there is a gap between our message and our ability to send it Each week as people pause to learn about faith and get a word of hope a lot rides on the sermon Susan Cartmell took a journey across the country to visit churches with great preaching and lively worship What she discovered was that Evangelical Christians and Unitarian Universalists were using themed preaching effectively to attract new members Working in her church over the last five years she has designed a new system for preaching with themes in mainline Protestant churches She shares her method and her journey in a story that invites you to consider new ways to preach faithfully without using the lectionary *12 Essential Skills for Great Preaching* Wayne McDill, 2006 In this newly expanded second edition of *12 Essential Skills for Great Preaching* Dr Wayne McDill draws on decades of experience as a preacher and homiletics professor to inspire other preachers to live up to their God-given potential Here are twelve proven ways to pack more content and effectiveness into every sermon covering all of the bases from general preparation to the end result of increasing each listener's faith Recent seminary graduates and seasoned pastors alike will identify skills that need personal improvement and McDill encourages them to strengthen such areas at their own pace and in whatever order they feel is best Every chapter in this new edition has been revised and updated Also included are additional worksheet helps and sermon examples **The New Interpreter's® Handbook of Preaching**, 2010-11-01 The New Interpreter's Handbook of Preaching is a major reference tool for preaching with articles on every facet of Christian sermon preparation and delivery This resource is both scholarly and practical It focuses on the most distinctive feature and greatest strength of homiletics as a discipline It is rooted in interdisciplinary scholarship and it develops theory geared to practice Its theory arises out of the study of both excellent preaching past and present and actual sermon preparation and composition When theory and practice critique each other it is possible to produce guidelines that assist greater excellence and economy in preaching the gospel Excellence in standards is an area in which homiletics needs to grow and this project will be both a means to encourage and develop it A guiding question throughout will be Will it preach The answers will be offered in the sense that here is something that works well rather than here is something to try Preachers will turn to this resource with the expectation that they will find scholarly treatment of topics brief bibliographies of relevant key books and articles along with practical methodological suggestions for preachers to employ The contributors are homileticians preachers and writers in various disciplines who are committed to the pulpit through practice
