The Politics of the Book Filipe Carreira da Silva, Mónica Brito Vieira, 2019-05-16 It is impossible to separate the content of a book from its form In this study Filipe Carreira da Silva and Mónica Brito Vieira expand our understanding of the history of social and political scholarship by examining how the entirety of a book mediates and constitutes meaning in ways that affect its substance appropriation and reception over time Examining the evolving form of classic works of social and political thought including W E B Du Bois s *The Souls of Black Folk* G H Mead s *Mind Self and Society* and Karl Marx s 1844 *Economic and Philosophic Manuscripts* Carreira da Silva and Brito Vieira show that making these books involved many hands They explore what publishers editors translators and commentators accomplish by offering the reading public new versions of the works under consideration examine debates about the intended meaning of the works and discussions over their present relevance and elucidate the various ways in which content and material form are interwoven In doing so Carreira da

Silva and Brito Vieira characterize the editorial process as a meaning producing action involving both collaboration and an ongoing battle for the importance of the book form to a work's disciplinary belonging, ideological positioning and political significance. Theoretically sophisticated and thoroughly researched, *The Politics of the Book* radically changes our understanding of what doing social and political theory and its history implies. It will be welcomed by scholars of book history, the history of social and political thought and social and political theory. Our Social World Jeanne H. Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2016-11-30. Inspire your students to develop their sociological imaginations in *Our Social World*. Focused on deep learning rather than memorization, this book encourages readers to analyze, evaluate and apply information about the social world to see the connection between the world and personal events from a new perspective and to confront sociological issues on a day to day basis. Organized around the Social World Model, a conceptual framework used across chapters to see the complex links between various micro to macro levels of the social system, students will develop the practice of using three levels of analysis and to view sociology as an integrated whole rather than a set of discrete subjects.

Mediation in the Reflection of Law and Society Lenka Holá, Miloš Večeřa, Martina Urbanová, Jan Holas, David Fiedor, 2021-12-08. Despite slow progress in use, mediation continues to consolidate its presence in dispute resolution. This important book argues that a more favourable socio-legal climate must be created for mediation to thrive and accordingly analyses the legal, cultural, social, systemic and spatial aspects of the use of mediation in the legal practice of the different countries of the European Union (EU). Based on a spatiotemporal analysis and models of mediation in the EU, it pinpoints the social and cultural reasons for the fragmentation of its legal regulation and shows what paths are available to promote the effective implementation of mediation in social practice. It is the first book to capture the socio-legal context of mediation. A spatiotemporal analysis of the extent of use of mediation in a region as large and at the same time as diverse as the EU has never been carried out before. Using various methodological and conceptual approaches to analyse the legal and social aspects of introducing mediation to legal systems, the authors, all with long term experience in the exercise and research of mediation directly in the field, provide invaluable insights into such facets of the use of mediation as the following: the social context that raises the need for mediation; obstacles to the wider use of mediation in resolving disputes between parties; the effects of social influences reflected in legislation that shape the laws of each country; the basic models that make up the system of access to mediation in specific EU Member States; the role of law as a tool for social change and its reflection in the legal regulation of mediation and perspectives for further development of mediation in the EU. The legislative efforts proposed to enhance the regulation of mediation in EU countries are based on modern knowledge of law, sociology and psychology. As a unique combination of exploration of the theoretical determinants of mediation and an empirical study of the extent of its use in the European area, this book's fundamental contribution to the legal theory and practice of mediation is inarguable. Its analysis of mediation from three perspectives as a means of improving citizens' access to justice as a means of

applying social justice in society and as a means of restorative justice are of the utmost value in today's global society. For users of mediation EU institutions involved in mediation EU Member State authorities addressing the issue of mediation and the wider dispute resolution community worldwide the book will be welcomed for the giant steps it takes toward refining arguments for the promotion of mediation and its development in theory research and practice Essentials of Sociology George Ritzer, 2019-11-08 The author is a proud sponsor of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Join the conversation with one of sociology's best known thinkers In the fully updated Fourth Edition of Essentials of Sociology bestselling author George Ritzer shows students the relevance of sociology to their lives Adapted from Ritzer's Introduction to Sociology this text provides students with a rock solid foundation in a shorter and more streamlined format Students will learn about traditional sociological concepts and theories as well as some of the most compelling contemporary social phenomena globalization consumer culture the Internet and the McDonaldisation of society Packed with current examples and the latest research of how public sociologists are engaging with the critical issues of today this new edition encourages students to apply a sociological perspective to their worldview empowering them to participate in a global conversation about current social problems Digital Option Courseware SAGE Vantage is an intuitive digital platform that delivers this text's content and course materials in a learning experience that offers auto graded assignments and interactive multimedia tools all carefully designed to ignite student engagement and drive critical thinking Built with you and your students in mind it offers simple course set up and enables students to better prepare for class Assignable Video with Assessment Assignable video available with SAGE Vantage is tied to learning objectives and curated exclusively for this text to bring concepts to life LMS Cartridge formerly known as SAGE Coursepacks Import this title's instructor resources into your school's learning management system LMS and save time Don't use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site SAGE Lecture Spark Designed to save you time and ignite student engagement these free weekly lecture launchers focus on current event topics tied to key concepts in Sociology Reviving the Social Compact Naomi Zack, 2018-11-05 Naomi Zack's Reviving the Social Compact Inclusive Citizenship in an Age of Extreme Politics addresses current political and social upheaval and distress with new concepts for the relationship between citizens and government Politics has become turbo charged as a form of agonistic contest where candidates and the public become more focused on winning than on governing or holding the government accountable for the benefit of the people This failure of the government to fulfill its part of the social contract calls for a new social compact wherein citizens as a collective whole make long term resolutions outside of government institutions Analyzing present and evolving events Zack reveals how race has exceeded intersection after formal rights have failed to correct ongoing discrimination how class is no longer based on real life interests and has been manufactured and manipulated for political
