Rhetorics of Value Corinne A. Kratz, 2025-03-28 In *Rhetorics of Value* Corinne A. Kratz explores how exhibition design creates and conveys values that have the potential to touch, educate and engage visitors. Drawing on case studies from the Victoria and Albert Museum, museums in South Africa and Kenya, a Hawaiian resort hotel and the Smithsonian's National Museum of African American History and Culture, among others, Kratz shows how exhibits help shape and narrate cultural categories, values and histories while provoking questions and evoking memories and experiences. She crosses contexts to consider ethnographic history and art exhibits in national and community museums and other display settings. Through these examples, Kratz traces how exhibition designers combine objects, texts, images, lighting, audio, space and narratives to craft a complex, multilayered communicative form that visitors experience as they move through museums. By investigating the relationship between audience reception and exhibition design strategies, Kratz contends that through design, exhibits can shape the ways we know the stories we tell and our contours of meaning and engagement.

The Anatomy Museum Elizabeth Hallam, 2008 Anatomy museums around the world showcase preserved corpses in service of education and medical advancement, but they are little known and have been largely hidden from the public eye. Elizabeth Hallam here investigates the anatomy museum and how it reveals the fascination and fears that surround the dead body in Western societies. Hallam explores the history of these museums and how they operate in the current cultural environment. Their regulated access increasingly clashes with evolving public mores toward the exposed body, as demonstrated by the international popularity of the *Body Worlds* exhibition. The book examines such related topics as artistic works that employ the images of dead bodies and the larger ongoing debate over the disposal of corpses. Issues such as aesthetics and science, organ and body donations and the dead body in Western religion and ritual are also discussed here in fascinating depth. *The Anatomy Museum* unearths a strange and compelling cultural history that investigates the ideas of preservation, human rituals of death and the spaces that our bodies occupy in this life and beyond.

National Museums and Nation-building in Europe 1750-2010 Peter Aronsson, Gabriella Elgenius, 2014-12-05 Europe's national museums have since their creation been at the centre of on-going nation-making processes. National museums negotiate conflicts and contradictions and entrain the community sufficiently to obtain the support of scientists and art connoisseurs, citizens and taxpayers, policy makers, domestic and foreign visitors alike. *National Museums and Nation building in Europe 1750-2010* assesses the national museum as a manifestation of cultural and political desires rather than that a straightforward representation of the historical facts of a nation. *National Museums and Nation building in Europe 1750-2010* examines the

degree to which national museums have created models and representations of nations their past present and future and proceeds to assess the consequences of such attempts Revealing how different types of nations and states former empires monarchies republics pre modern modern or post imperial entities deploy and prioritise different types of museums based on art archaeology culture and ethnography in their making this book constitutes the first comprehensive and comparative perspective on national museums in Europe and their intricate relationship to the making of nations and states *Museum Revolutions* Simon Knell, Suzanne MacLeod, Sheila Watson, 2007-09-12 This single volume museum studies reference title explores the ways in which museums are shaped and configured and how they themselves attempt to shape and change the world around them Written by a leading group of museum professionals and academics from around the world and including new research the chapters reveal the diverse and subtle means by which museums engage and in so doing change and are changed The authors span over 200 years discussing national museums ecomuseums society museums provincial galleries colonial museums the showman s museum and science centres Topics covered include disciplinary practices ethnic representation postcolonial politics economic aspiration social reform indigenous models conceptions of history urban regeneration sustainability sacred objects a sense of place globalization identities social responsibility controversy repatriation human remains drama learning and education Capturing the richness of the museum studies discipline *Museum Revolutions* is the ideal text for museum studies courses providing a wide range of interlinked themes and the latest thought and research from experts in the field It is invaluable for those students and museum professionals who want to understand the past present and future of the museum

A Museum Studies Approach to Heritage Sheila Watson, Amy Jane Barnes, Katy Bunning, 2018-10-08 Heritage s revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non Western philosophies and practices and a growing respect for the intangible Heritage has thus far focused on management tourism and the traditionally heritage minded disciplines such as archaeology geography and social and cultural theory Widening the scope of international heritage studies *A Museum Studies Approach to Heritage* explores heritage through new areas of knowledge including emotion and affect the politics of dissent migration and intercultural and participatory dimensions of heritage Drawing on a range of disciplines and the best from established sources the book includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is what it can do and how it works and for whom Including heritage perspectives from beyond the professional sphere the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice This blending of traditional topics and emerging trends established theory and concepts from other disciplines offers readers international views of the past and future of this growing field *A Museum Studies Approach to Heritage* offers a wider more current and more inclusive overview of issues and practices in heritage and its intersection with museums As such the book will be essential reading for postgraduate students

of heritage and museum studies It will also be of great interest to academics practitioners and anyone else who is interested in how we conceptualise and use the past

Museums and the Public Sphere Jennifer Barrett, 2012-04-30 Museums and the Public Sphere investigates the role of museums around the world as sites of democratic public space Explores the role of museums around the world as sites of public discourse and democracy Examines the changing idea of the museum in relation to other public sites and spaces including community cultural centers public halls and the internet Offers a sophisticated portrait of the public and how it is realized invoked and understood in the museum context Offers relevant case studies and discussions of how museums can engage with their publics in more complex productive ways

Artefacts, Archives, and Documentation in the Relational Museum Mike Jones, 2021-07-14 Artefacts Archives and Documentation in the Relational Museum provides the first interdisciplinary study of the digital documentation of artefacts and archives in contemporary museums while also exploring the implications of polyphonic relational thinking on collections documentation Drawing on case studies from Australia the United Kingdom and the United States the book provides a critical examination of the history of collections management and documentation since the introduction of computers to museums in the 1960s demonstrating how technology has contributed to the disconnection of distributed collections knowledge Jones also highlights how separate documentation systems have developed managed by distinct increasingly professionalised staff impacting our ability to understand and use what we find in museums and their ever expanding online collections Exploring this legacy allows us to rethink current practice focusing less on individual objects and more on the rich stories and interconnected resources that lie at the heart of the contemporary plural participatory relational museum Artefacts Archives and Documentation in the Relational Museum is essential reading for those who wish to better understand the institutional silos found in museums and the changes required to make museum knowledge more accessible The book is a particularly important addition to the fields of museum studies archival science information management and the history of cultural heritage technologies
