Nineteenth-Century Choral Music is an in depth examination of the rich repertoire of choral music and the cultural phenomenon of choral music making throughout the period. The book is divided into three main sections. The first details the attraction to choral singing and the ways it was linked to different parts of society and to the role of choral voices in the two principal large scale genres of the period the symphony and opera. A second section highlights ten choral orchestral masterworks that are a central part of the repertoire. The final section presents overview and focus chapters covering composers repertoire both small and larger works and performance life in an historical context from over a dozen regions of the world: Britain and Ireland, the Czech Republic, France, Germany, Hungary, Italy, Latin America, the Philippines, Poland, Russia, Scandinavia, and Finland, Spain, and the United States. This diverse collection of essays brings together the work of 25 authors, many of whom have devoted much of their scholarly lives to the composers and music discussed, giving the reader a lively and unique perspective on this significant part of nineteenth century musical life. **CD Review**, 1994

The Metropolitan Opera on Record Frederick P. Fellers, 2010-06-11. **The Metropolitan Opera on Record** A Discography of the Commercial Recordings is a comprehensive listing of all the commercial sound recordings involving the Chorus and Orchestra of the Metropolitan Opera, one of the world's leading musical organizations. Over 900 recording sessions are listed chronologically, starting in 1906 and continuing through the last digital recordings conducted by James Levine in 1998. Entries include excerpts and complete recordings from more than 120 operas in various formats, representing more than 380 artists. The recordings are fully annotated, including the session date and location, the primary source of information, the opera title and composer, matrix number and speed of the recording, the artists performing, the recording company name and number, the format, and the release dates. In addition, Fellers provides a fascinating history of the Met recordings from the first Leeds Catlin recordings in the early 1900s to the digital recordings of the 1990s. Additional information on the Opera House String Orchestra and the Radio Broadcasts are included, as well as complete indexes listing the works by composer, title, and artist. **Resonances of**

the Raj Nalini Ghuman, 2014. During the century of British rule of the Indian subcontinent, known as the British Raj, the rulers felt the significant influence of their exotic subjects. **Resonances of the Raj** examines the ramifications of the intertwined and overlapping histories of Britain and India on English music in the last fifty years of the colonial encounter and traces the effects of the Raj on the English musical imagination. Conventional narratives depict a one-way influence of Britain on India, with the discovery of Indian classical music occurring only in the post-colonial era. Drawing on new archival sources and approaches in cultural studies, author Nalini Ghuman shows that, on the contrary, England was both deeply aware of and heavily influenced by India musically during the Indian-British colonial encounter. Case studies of representative figures, including composers Edward Elgar and Gustav Holst and Maud MacCarthy, an ethnomusicologist and performer of the era, integrate music directly into the cultural history of the British Raj. Ghuman thus reveals unexpected minglings of peoples

musics and ideas that raise questions about Englishness the nature of Empire and the fixedness of identity Richly illustrated with analytical music examples and archival photographs and documents many of which appear here in print for the first time Resonances of the Raj brings fresh hearings to both familiar and little known musics of the time and reveals a rich and complex history of cross cultural musical imaginings which leads to a reappraisal of the accepted historiographies of both British musical culture and of Indo Western fusion
