

A painting by Leonard Barkan depicting a man and a woman in a close, intimate pose. The man, on the left, is shown in profile, looking down at a book. The woman, on the right, is leaning over him, her face close to his, looking down at the same book. The lighting is dramatic, with strong highlights on their faces and hands, and deep shadows elsewhere. The overall mood is contemplative and focused.

Mute Poetry Speaking Pictures Mute Poetry Speaking Pictures:

Mute Poetry, Speaking Pictures Leonard Barkan, 2012-11-25 The skirmish between painting and poetry from Plato and Praxiteles to Rembrandt and Shakespeare Why do painters sometimes wish they were poets and why do poets sometimes wish they were painters What happens when Rembrandt spells out Hebrew in the sky or Poussin spells out Latin on a tombstone What happens when Virgil Ovid or Shakespeare suspend their plots to describe a fictitious painting In *Mute Poetry Speaking Pictures* Leonard Barkan explores such questions as he examines the deliciously ambiguous history of the relationship between words and pictures focusing on the period from antiquity to the Renaissance but offering insights that also have much to say about modern art and literature The idea that a poem is like a picture has been a commonplace since at least ancient Greece and writers and artists have frequently discussed poetry by discussing painting and vice versa but their efforts raise more questions than they answer From Plutarch painting is mute poetry poetry a speaking picture to Horace as a picture so a poem apparent clarity quickly leads to confusion about for example what qualities of pictures are being urged upon poets or how pictorial properties can be converted into poetical ones The history of comparing and contrasting painting and poetry turns out to be partly a story of attempts to promote one medium at the expense of the other At the same time analogies between word and image have enabled writers and painters to think about and practice their craft Ultimately Barkan argues this dialogue is an expression of desire the painter longs for the rich signification of language while the poet yearns for the direct sensuousness of painting Museum of Words James A. W. Heffernan, 2004-04 Ekphrasis is the art of describing works of art the verbal representation of visual representation Profoundly ambivalent ekphrastic poetry celebrates the power of the silent image even as it tries to circumscribe that power with the authority of the word Over the ages its practitioners have created a museum of words about real and imaginary paintings and sculptures In the first book ever to explore this museum James Heffernan argues that ekphrasis stages a battle for mastery between the image and the word Moving from the epics of Homer Virgil and Dante to contemporary American poetry this book treats the history of struggle between rival systems of representation Readable and well illustrated this study of how poets have represented painting and sculpture is a major contribution to our understanding of the relation between the arts *Titian's Portraits through Aretino's Lens*, 1995 **Sound, Image, Silence** Michael Gaudio, 2019-11-26 A visionary new approach to the Americas during the age of colonization made by engaging with the aural aspects of supposedly silent images Colonial depictions of the North and South American landscape and its indigenous inhabitants fundamentally transformed the European imagination but how did those images reach Europe and how did they make their impact In *Sound Image Silence* noted art historian Michael Gaudio provides a groundbreaking examination of the colonial Americas by exploring the special role that aural imagination played in visible representations of the New World Considering a diverse body of images that cover four hundred years of Atlantic history *Sound Image Silence* addresses an important need within art history to give

hearing its due as a sense that can inform our understanding of images Gaudio locates the noise of the pagan dance the discord of battle the din of revivalist religion and the sublime sounds of nature in the Americas such as lightning thunder and the waterfall He invites readers to listen to visual media that seem deceptively couched in silence offering bold new ideas on how art historians can engage with sound in inherently mute media Sound Image Silence includes readings of Brazilian landscapes by the Dutch painter Frans Post a London portrait of Benjamin Franklin Thomas Edison s early Kinetoscope film Sioux Ghost Dance and the work of Thomas Cole founder of the Hudson River School of American landscape painting It masterfully fuses a diversity of work across vast social cultural and spatial distances giving us both a new way of understanding sound in art and a powerful new vision of the New World *Shakespeare's Tragic Art* Rhodri Lewis,2024-10-08 In this book Rhodri Lewis argues that Shakespeare s tragedies are a series of experiments that attempt to tell the truth about the world as Shakespeare sees it and to discover how far he can stretch tragic affirmation to accommodate the darker aspects of this vision Lewis argues that Shakespeare worked hard to develop an understanding of what tragedy might be good for that this understanding emerged from his engagement with the traditions of tragic writing and theorizing that had gone before him that he used this understanding to shape his tragic plays as carefully patterned aesthetic wholes and that Shakespeare s understanding of the tragic has as little to do with Hegel as it does with the unities of tragic time place and action that many of Shakespeare s peers and successors busied themselves abstracting from Aristotle s Poetics Lewis begins the book by tracing the ideas and practices of tragedy as they were known to Shakespeare and his contemporaries in the sixteenth century He then takes a chronological approach to Shakespeare s plays ultimately seeking to affirm the status of dramatic art in Shakespeare s time as a medium for telling the truth about the human experience in a world that is not fully susceptible to rational analysis **Handbook of Intermediality** Gabriele Rippl,2015-07-24 This handbook offers students and researchers compact orientation in their study of intermedial phenomena in Anglophone literary texts and cultures by introducing them to current academic debates theoretical concepts and methodologies By combining theory with text analysis and contextual anchoring it introduces students and scholars alike to a vast field of research which encompasses concepts such as intermediality multi and plurimediality intermedial reference transmediality ekphrasis as well as related concepts such as visual culture remediation adaptation and multimodality which are all discussed in connection with literary examples Hence each of the 30 contributions spans both a theoretical approach and concrete analysis of literary texts from different centuries and different Anglophone cultures *Painting the Novel* Jakub Lipski,2017-12-22 *Painting the Novel Pictorial Discourse in Eighteenth Century English Fiction* focuses on the interrelationship between eighteenth century theories of the novel and the art of painting a subject which has not yet been undertaken in a book length study This volume argues that throughout the century novelists from Daniel Defoe to Ann Radcliffe referred to the visual arts recalling specific names or artworks but also artistic styles and conventions in an attempt

to define the generic constitution of their fictions In this the novelists took part in the discussion of the sister arts not only by pointing to the affinities between them but also more importantly by recognising their potential to inform one another in other words they expressed a conviction that the theory of a new genre can be successfully rendered through meta pictorial analogies By tracing the uses of painting in eighteenth century novelistic discourse this book sheds new light on the history of the so called rise of the novel The Open Access version of this book available at <https://www.taylorfrancis.com/books/painting-novel-jakub-lipski/10-4324-9781351137812> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
