The Measurement of Durable Goods Prices Robert J. Gordon, 2007-12-01
American business has recently been under fire, charged with inflated pricing and an inability to compete in the international marketplace. However, the evidence presented in this volume shows that the business community has been unfairly maligned. Official measures of inflation and the standard of living have failed to account for progress in the quality of business equipment and consumer goods. Businesses have actually achieved higher productivity at lower prices, and new goods are lighter, faster, more energy efficient and more reliable than their predecessors. Robert J. Gordon has written the first full scale work to treat the extent of quality changes over the entire range of durable goods from autos to aircraft, computers to compressors, from televisions to tractors. He combines and extends existing methods of measurement, drawing data from industry sources, Consumer Reports and the venerable Sears catalog. Beyond his important finding that the American economy is more sound than officially recognized, Gordon provides a wealth of anecdotes tracing the postwar history of technological progress. Bolstering his argument that improved quality must be accurately measured, Gordon notes, for example, that today's mid range personal computers outperform the multimillion dollar mainframes of the 1970s. This remarkable book will be essential reading for economists and those in the business community.

Running From The Devil C. David Cash, 2022-08-30
I will never be an alcoholic or do drugs. I want to be like my father, respected. For over a year I have been praying for wisdom like Solomon in the Bible. Be careful what you pray for. At the age of seventeen I broke my neck diving off a seawall. I should have drowned. My doctor, as well as another respected surgeon, stated David is paralyzed from the neck down. No chance of recovery. Within eight months of my stay in two hospitals, the insurance money ran out. I could walk, I could not use my right hand. I left the first hospital a drug addict because of a massive amount of morphine. Dosages were fairly unregulated in 1969. This is a wonderful true story of my life up to thirty years old. I quit a fantastic job making plenty of money in management. I was mentally and financially broke when I drove to California, arrived with little money, stayed for five months, worked, enjoyed life and felt restored. I flew to Oahu with everything I owned in a backpack along with \$260. I camped next to the ocean for five months, built a small business at Sunset Beach, bought a car and rented a house on the beach. A spellbinding story. I promise you will feel like you are right there with me on the North Shore of Oahu back in 1977 when I was about to be murdered by

six Samoans while hiking deep in the palm jungle with a friend Imagine the power of the waves when you first learn to surf and the many ways to have fun all around Laguna Beach This is my fascinating story very unique and captivating
