Muslim Expansion And Byzantine Collapse In North Africa:

Muslim Expansion and Byzantine Collapse in North Africa Walter E. Kaegi, 2010-11-04 This book investigates the failure of the Byzantine Empire to develop successful resistance to the Muslim conquest of North Africa

Byzantium and the Emergence of Muslim-Turkish Anatolia, ca. 1040-1130 Alexander Daniel Beihammer, 2017-02-17 The arrival of the Seljuk Turks in Anatolia forms an indispensable part of modern Turkish discourse on national identity but Western scholars by contrast have rarely included the Anatolian Turks in their discussions about the formation of European nations or the transformation of the Near East The Turkish penetration of Byzantine Asia Minor is primarily conceived of as a conflict between empires sedentary and nomadic groups or religious and ethnic entities This book proposes a new narrative which begins with the waning influence of Constantinople and Cairo over large parts of Anatolia and the Byzantine Muslim borderlands as well as the failure of the nascent Seljuk sultanate to supplant them as a leading supra regional force In both Byzantine Anatolia and regions of the Muslim heartlands local elites and regional powers came to the fore as holders of political authority and rivals in incessant power struggles Turkish warrior groups quickly assumed a leading role in this process not because of their raids and conquests but because of their intrusion into pre existing social networks They exploited administrative tools and local resources and thus gained the acceptance of local rulers and their subjects Nuclei of lordships came into being which could evolve into larger territorial units There was no Byzantine decline nor Turkish triumph but rather the driving force of change was the successful interaction between these two spheres

Muhammad's Military Expeditions Ayman S. Ibrahim, 2024 The Arabic Muslim literature on Muhammad s maghazi is bountiful Since this book focuses on Muhammad s maghazi a survey of this literature is important not only to establish the centrality of the topic in Islamic thought but also to relay the uniqueness and contribution of this book To that end in this chapter I will first explore that which classical Muslim narrators wrote on Muhammad s maghazi and the ways they used the

accounts to reflect Allah's support for Muhammad and the believers. In the second section I will examine discussions by modern and contemporary Muslims relaying how they interpret the accounts of the maghazi. In particular I will discuss their articulation of the motivations and results of Muhammad's military campaigns. The first two sections of this chapter will thus establish the centrality of the maghazi as a literary genre as well as its importance among Muslims past and present. In the third section I take the discussion to non-Muslim scholarship. I explore briefly early views on Muhammad and his career by non-Muslims before I focus on works and arguments of key Western scholars from the nineteenth century until our present day.

Visions of Community in the Post-Roman World Walter Pohl, Clemens Gantner, Richard Payne, 2016-03-03. This volume looks at visions of community in a comparative perspective from Late Antiquity to the dawning of the age of crusades. It addresses the question of why and how distinctive new political cultures developed after the disintegration of the Roman World and to what degree their differences had already emerged in the first post-Roman centuries. The Latin West, Orthodox Byzantium and its Slavic periphery and the Islamic world each retained different parts of the Graeco-Roman heritage while introducing new elements. For instance, ethnicity became a legitimizing element of rulership in the West, remained a structural element of the imperial periphery in Byzantium and contributed to the inner dynamic of Islamic states without becoming a resource of political integration. Similarly, the political role of religion also differed between the emerging post-Roman worlds. It is surprising that little systematic research has been done in these fields so far. The 32 contributions to the volume explore this new line of research and look at different aspects of the process with leading Western Medievalists, Byzantinists and Islamicists covering a wide range of pertinent topics. At a closer look, some of the apparent differences between the West and the Islamic world seem less distinctive and the inner variety of all post-Roman societies becomes more marked. At the same time, new variations in the discourse of community and the practice of power emerge. Anybody interested in the development of the post-Roman Mediterranean but also in the relationship between the Islamic World and the West will gain new insights from these studies on the political role of ethnicity and religion in the post-Roman Mediterranean.

Ancient African Christianity David E. Wilhite, 2017-07-14. Christianity spread across North Africa early and it remained there as a powerful force much longer than anticipated. While this African form of Christianity largely shared the Latin language and Roman culture of the wider empire, it also represented a unique tradition that was shaped by its context. *Ancient African Christianity* attempts to tell the story of Christianity in Africa from its inception to its eventual disappearance. Well-known writers such as Tertullian, Cyprian and Augustine are studied in light of their African identity and this tradition is explored in all its various expressions. This book is ideal for all students of African Christianity and also a key introduction for anyone wanting to know more about the history, religion and philosophy of these early influential Christians whose impact has extended far beyond the African landscape.
