Lavoie, 2014-11-05 Christian mystic astrologer and spiritualist Charles Carleton Massey 1838 1905 underwent an eclectic spiritual journey that resulted in a series of articles letters and booklets that have largely been neglected by modern society Massey was a child of privilege formally trained as a barrister of law at the Westminster School and the son of the English Minister of Finance for India He devoted his life to solving the metaphysical mysteries of existence leading him into the world of religious philosophy that placed him in the middle of a crossroads between Victorian science religion and philosophy Beginning his journey as a Spiritualist Massey continued on a course that brought him into the Theosophical Society eventually becoming the founding president of its British branch going through the ranks of the Society of Psychical Research and ultimately into his final role as a Christian mystic This indispensable work combines Massey s collected writings with never before published letters organized topically in order to define Massey s unique world view for a new generation of readers This book covers a range of topics from the nature of God to the microcosm and macrocosm to Satanism and reincarnation all the while allowing the reader a rare glimpse into Victorian England and the social and religious issues of this time period The recollections recorded in this book though written over a hundred years ago are dealt with in such a simple yet profound way that remain relevant to modern spiritual seekers of all types **HOLY BIBLE WORD SEARCH PUZZLES UNSCRAMBLE THE ANSWERS** Atkins Books, 2011-01-31 The Holy Bible is one of the most widely used

Wesley Ariarajah, 2018-10-01 Interfaith dialogue in a plural world This volume is based on the belief that both the ecumenical and interfaith movements are looking for new orientations for their future The forces of globalization communications revolution and massive population movements challenge some of the theological assumptions and presuppositions on which they were built The entry of deep and divisive religious sentiments into the public space and the rise of militant forms of religious expression call on the interfaith movement to move beyond traditional forms of dialogue the challenge is to enter into a deeper engagement on the purpose and role of religious traditions in society The impasse facing these movements can only be overcome by new orientations as they look to the future This volume is not specifically on this problem However the collection of essays included in this volume although first given as lectures or written as articles traces past developments identifies the challenges these movements face today and suggests fresh theological moves to regain the initiatives to bring human communities closer together The Search for the Truth of God J. D. Terrell, 1991 Andrew Fuller and the Search for a Faith Worthy of All Acceptation David Mark Rathel, 2024-08-22 The eighteenth century English minister Andrew Fuller lived a consequential life debating noteworthy contemporaries such as Thomas Paine and contributing to the pioneering international work of William Carey However his soteriology remains his most significant theological contribution Fuller explored the role that human agency plays in salvation s reception and he offered substantive theological proposals that many religious historians now credit with advancing the Evangelical Revival Fuller s work was both traditional and creative He sought faithfulness to the broader Protestant tradition but developed that tradition in unique and contextually relevant ways Despite Fuller s influence much research into his life and work remains *Andrew Fuller and the Search for a Faith Worthy of All Acceptation* examines heretofore underutilized primary sources related to Fuller s theological development It attends to neglected texts produced by Fuller s opponents and mentors Analysing these sources provides a fresh reading of Fuller s historical setting one that contextualizes his theology and illuminates his constructive work on faith as a human response to the Gospel This new interpretation allows scholars to discern more accurately the concepts that animated Fuller the persons he sought to refute and the sources on which he relied This interpretation of Fuller challenges assumptions in contemporary scholarship and raises new questions for further research **A Documentary History of Religion in America** Edwin Scott Gaustad, Mark A. Noll, Heath W. Carter, 2018 Students and scholars have long turned to the two volume *Documentary History of Religion in America* for access to the most significant primary sources relating to American religious history Published here in a single volume for the first time the work in this fourth edition has been both updated and condensed allowing instructors to more

easily use the material in one semester **Theology in Search of Foundations** Randal Rauser, 2009-08-20 In the history of Western thought Christian theology was once considered to be the Queen of Sciences Today it has been marginalised by a prevailing scepticism Randal Rauser confronts the problem of developing a public voice for the theologian as engaged in true theological science while not compromising the commitment to the Christian community of faith This book posits a viable account of theological rationality justification and knowledge that avoids the twin pitfalls of modern rationalism and postmodern irrationalism Theology is freshly understood as a rigorous and rational truth seeking discipline that seeks theoretical understanding of divine reality Throughout the modern era the predominant epistemological position has been classical foundationalism a position now widely rejected by philosophers and theologians alike Philosophers recognize that it fails to achieve a plausible account of rationality justification or knowledge while theologians recognize the extent to which classical foundationalist strictures have distorted Christian doctrine In its place many philosophers and theologians alike have adopted a nonfoundationalist epistemology which is in turn often associated with a problematic alethic and metaphysical antirealism Engaging with the ideas of key thinkers from Descartes Locke and Kant to Bruce Marshall and Alvin Plantinga Rauser provides an accessible and provocative survey of the theological terrain of the modern and postmodern era arguing in favour of a return to a moderate foundationalism
