Second Summer Revised Expanded Turnback:

Carved from Granite Lance Betros, 2012-04-23 The United States Military Academy at West Point is one of America's oldest and most revered institutions. Founded in 1802, its first and only mission is to prepare young men and since 1976 young women to be leaders of character for service as commissioned officers in the United States Army. West Point's success in accomplishing that mission has secured its reputation as the foremost leadership development institution in the world. An Academy promotional poster says it this way: At West Point, much of the history we teach was made by people we taught. *Carved from Granite* is the story of how West Point goes about producing military leaders of character. An opening chapter on the Academy's nineteenth-century history provides context for the topic of each subsequent chapter. As scholar and Academy graduate Lance Betros shows, West Point's early history is interesting and colorful, but its history since then is far more relevant to the issues and problems that face the Academy today. Drawing from oral histories, archival sources, and his own experiences as a cadet and later a faculty member, Betros describes and assesses how well West Point has accomplished its mission. And while West Point is an impressive institution in many ways, Betros does not hesitate to expose problems and challenge long-held assumptions. In a concluding chapter that is both subjective and interpretive, the author offers his prescriptions for improving the institution, focusing particularly on the areas of governance, admissions, and intercollegiate athletics. Photographs, tables, charts, and other graphics aid the clarity of the discussion and lend visual and historical interest. *Carved from Granite: West Point since 1902* is the most authoritative history of the modern United States Military Academy written to date. There will be lively debate over some of the observations made in this book, but if they are followed, the author asserts that the Academy will emerge stronger and better able to accomplish its vital mission in the new century and beyond.

Never Turn Back Julian Gewirtz, 2022-10-18 The 1980s saw spirited debate in China as officials and the public pressed for economic and political liberalization. But after Tiananmen, the Communist Party erased the reform debate from memory. Julian Gewirtz shows how the leadership expunged alternative visions of China's future and set the stage for the policing of history under Xi Jinping.

The Gods of Second Chances Dan Berne, 2014-03-01 Family means everything to widowed Alaskan fisherman Ray Bancroft, raising his granddaughter with help from a multitude of gods and goddesses, not to mention rituals ad libbed at sea by his half-Tlingit best friend. But statues and otter bone ceremonies aren't enough when Ray's estranged daughter returns from prison, her search for a safe harbor threatening everything he holds sacred.

A New Physical Geography Elisée Reclus, 1894 *Self-Sufficient Sailor 3rd edition* Lin Pardey, Larry Pardey, 2019-11-01 This book is just what the title says. It is the distillation of what the Lin and Larry learned during more than 47 years of sailing together, years during which they covered more than 210,000 miles on board their two cutters, *Seraffyn* and *Taleisin*, and on scores of other boats they have delivered or raced. Lin and Larry tell how they have sailed in comfort and safety without large cash outlay on a pay-as-you-earn-as-you-go plan and by simplifying. The first two editions of this invaluable text have seen more than 60,000

copies reach people who dream of setting sail be it for a weekend voyage across to an offshore island or for a world circumnavigation Lin continues voyaging now she is well into her seventh decade of life Armed with what she is learning as she explores the islands and far corners of the Tasman Sea she has updated and revised the information found in the original edition plus added several new chapters Amidst the new material is an extensive look at the lessons learned as Lin and Larry safely negotiated the stormy waters around Cape Horn and beyond This book could help you cut the ties that bind you to shore
