Adaptation Online Lyndsay Michalik Gratch, 2017-09-05 *Adaptation Online* Creating Memes Sweding Movies and other Digital Performances explores how traditional notions of the processes and products of creative adaptation are evolving online Using a performance lens and a shift in terminology from the metaphor of the cultural meme to the framing that adaptation affords Lyndsay Michalik Gratch considers online adaptations in terms of creative process and human agency rather than merely as products This book offers a glossary of strategies for online adaptation that is useful not only for scholars in performance studies but also for scholars of cinema communications and new media studies *Hollywood Online* Ian London, 2024-03-07 *Hollywood Online* provides a historical account of motion picture websites from 1993 to 2008 and their marketing function as industrial advertisements for video and other media in the digital age The Blair Witch Project is the most important example of online film promotion in cinema history Over the last thirty years only a small number of major and independent distributors have converted internet created buzz into box office revenues with similar levels of success Yet readings of how the film's internet campaign broke new ground in the summer of 1999 tend to minimize overlook or ignore the significance of other online film promotions Similarly claims that Blair initiated a cycle of imitators have been repeated in film publications and academic studies for more than two decades This book challenges three major narratives in studies about online film marketing Hollywood's major studios and independents had no significant relationship to the internet in the 1990s online film promotions only took off after 1999 because of Blair and Hollywood cashed in by initiating a cycle of imitators and scaling up corporate activities online *Hollywood Online* tests these assumptions by exploring internet marketing up to and including the film's success online Pre Blair 1993-9 then by examining the period immediately after Blair Post Blair 2000-8 which broadly coincides with the rise and decline of DVD as well as the emergence of the social media sites MySpace Facebook and Twitter **The Science Fiction Film in Contemporary Hollywood** Evdokia Stefanopoulou, 2023-07-27 *The Science Fiction Film in Contemporary Hollywood* focuses on the American science fiction SF film during the period 2001-2020 in order to provide a theoretical mapping of the genre in the context of Conglomerate Hollywood Using a social semiotics approach in a systematic corpus of films the book argues that the SF film can be delineated by two semiotic squares the first one centering on the genre's more than human ontologies SF bodies and the second one focusing on its imaginative worlds SF worlds Based on this theoretical framework the book examines the genre in six cycles which are placed in their historical context and are analyzed in relation to cultural discourses such as technological embodiment race animal human relations environmentalism global capitalism and the techno scientific Empire By considering these cycles which include superhero films creature films space operas among others as expressions of the genre's basic oppositions the book facilitates the comparison and juxtaposition of films that have rarely been discussed in tandem offering a new perspective on the multiple articulations of the SF film in the new millennium *Remakes and Remaking*
