

Of George Washington

**Charlene M. Boyer Lewis, George W.
Boudreau**

Of George Washington:

The Papers of George Washington George Washington, 1983 *The Life of George Washington ...* Aaron Bancroft, 1855
The Life of George Washington / La vida de George Washington Maria Nelson, 2012-01-01 George Washington wasn't just the first US president. He was also the general who led the Continental army to victory over the British. English language learners will discover facts about Washington's life in easy to follow language including his role in the founding of the United States and his presidency. Historic images and age appropriate content translated into standard Latin American Spanish will engage beginning readers who are learning about Washington's impact on the nation for the first time. *The Life of George Washington* Edward Everett, 1860 This work is a general biography of General and President George Washington with most attention paid to his military career and his Presidential administration. The appendices contain the will of President Washington as well as the inventory of Mount Vernon upon his death. Pictorial Life of George Washington Horatio Hastings Weld, 1846 The Life of George Washington, John Marshall, 1804 Life of George Washington Washington Irving, 1857 *The Presidency of George Washington* Danielle Smith-Llera, 2014-07-01 George Washington knew he was setting an example in everything he did. The first American president had been a heroic military commander during the Revolutionary War leading his forces to victory. As president he would guide the citizens of a new republic with a strong central government. No more would each state make its own decisions. Instead they would band together with the beloved Washington leading the way. It was up to him not to abuse the power of his mighty position. *The Life of George Washington* Samuel George Arnold, 1840 *Women in George Washington's World* Charlene M. Boyer Lewis, George W. Boudreau, 2022-07-27 George Washington lived in an age of revolutions during which he faced political upheaval, war, economic change and social shifts. These revolutions affected American women in profound ways and the women Washington knew personally, professionally and politically lived lives that reveal these multifaceted transformations. Although Washington often operated in male dominated arenas, he participated in complex and meaningful relationships with women from across society. A lively and accessibly written volume *Women in George Washington's World* highlights some of the women Black and white, free and enslaved whom Washington knew. Women who admired and memorialized him, women who provided him love and solace, women who frustrated him and women who worked for or against him, all of these women are chronicled through their own experiences and identities. The essays written by established and emerging historians of gender reveal the lives of a diverse group of women including plantation mistresses and enslaved workers, Loyalists and Patriots, poets and socialites as well as mothers, wives and sisters. Collectively, women emerge as strong actors during the American Revolution and its aftermath, not merely passive spectators or occasional participants. Although usually not on battlefields or in government offices, women made choices and acted in ways that affected their own, their families and sometimes even the nation's future.
