African American Religious Cultures Anthony B. Pinn, 2009-09-10 This encyclopedia offers the most comprehensive presentation available on the diversity and richness of religious practices among African Americans from traditions predating the era of the transatlantic slave trade to contemporary religious movements Like no previous reference African American Religious Cultures captures the full scope of African American religious identity tracing the long history of African American engagement with spiritual practice while exploring the origins and complexities of current religious traditions This breakthrough encyclopedia offers alphabetically organized entries on every major spiritual belief system as it has evolved among African American communities covering its beginnings development major doctrinal points rituals important figures and defining moments In addition the work illustrates how the social and economic realities of life for African Americans have shaped beliefs across the spectrum of religious cultures

Flaming? Alisha Lola Jones, 2020 Male centered theology a dearth of men in the pews and an overrepresentation of queer males in music ministry these elements coexist within the spaces of historically black Protestant churches creating an atmosphere where simultaneous heteropatriarchy and real masculinity anxieties archetypes of the alpha male preacher the effeminate choir director and homo antagonism are all in play The flamboyant male vocalists formed in the black Pentecostal music ministry tradition through their vocal styles gestures and attire in church services display a spectrum of gender performances from hyper masculine to feminine masculine to their fellow worshippers subtly protesting and critiquing the otherwise heteronormative theology in which the service is entrenched And while the performativity of these men is characterized by cynics as flaming a similar musicalized fire that of the Holy Spirit moves through the bodies of Pentecostal worshippers endowing them religio culturally physically and spiritually like fire shut up in their bones Using the lenses of ethnomusicology musicology anthropology men s studies queer studies and theology *Flaming The Peculiar Theo Politics of Fire and Desire in Black Male Gospel Performance* observes how male vocalists traverse their tightly knit social networks and negotiate their identities through and beyond the worship experience Author Alisha Jones ultimately addresses the ways in which gospel music and performance can afford African American men not only greater visibility but also an affirmation of their fitness to minister through speech and song

Divine Callings Richard N. Pitt, 2012-02 One of the unique aspects of the religious profession is the high percentage of those who claim to be called by God to do their work This call is particularly important within African American Christian traditions *Divine Callings* offers a rare sociological examination of this markedly understudied phenomenon within black ministry Richard N Pitt draws on over 100 in depth interviews with Black Pentecostal ministers in the Church of God in Christ both those ordained and licensed and those aspiring to examine how these men and women experience and pursue the call Viewing divine calling as much as a social process as it is a spiritual one Pitt delves into the personal stories of these individuals to explore their work as active agents in the process of fulfilling their calling In some cases those called cannot

find pastoral work due to gender discrimination lack of clergy positions and educational deficiencies Pitt looks specifically at how those who have not obtained clergy positions understand their call exploring the influences of psychological experience the congregational acceptance of their call and their response to the training process He emphasizes how those called reconceptualize clericalism in terms of who can be called how that call has to be certified and what those called are meant to do offering insight into how social actors adjust to structural constraints Pentecostal Orthodoxy Emilio Alvarez,2022-09-06 In this manifesto of sorts Bishop Emilio Alvarez introduces the phenomenon of Pentecostals returning to the ancient creedal Christian faith and extends the project of paleo orthodox ressourcement to include orthodox expressions within Pentecostalism particularly in his own Afro Latino Pentecostal movement **An Encyclopedia of Religions in the United States** William Bedford Williamson,1992 **African American Christian Worship** Melva W. Costen,2010-09-01 In this update to her 1993 classic African American Christian Worship Melva Wilson Costen again delights her reader with a lively history and theology of the African American worship experience Drawing upon careful scholarship and engaging stories Dr Costen details the global impact on African American worship by media technology and new musical styles She expands her discussion of ritual practices in African communities and clarifies some of the ritual use of music in worship In keeping with recent congregational practices Dr Costen will also provide general orders of worship suitable for a variety of denominational settings A plain manual of holy communion for English churchmen, by E.
