AMTIL the Source Peter Lambeck, 2009 Journal dates 2008 2009 Annual 2008 **Mergent International Manual**
, 2003 *Huebner's Machines Tool Specs: Threading through turning machines* ,1980 Flexible Automation in Japan J.
Hartley, 2013-04-09 Much has been said and written about Japan's manufacturing prowess Most of the comment comes from
people who are merely visitors to the country and can be best classified as observers looking in from the outside Other views
come from the Japanese themselves in which the double barrier of culture and language filters out much information that
would be of real value to Western industrialists Neither of these limitations apply to John Hartley who has been resident in
Japan for the past five years He understands the culture can speak the language and has extensive contacts at the highest
level Therefore he is in a unique position to report on the Japanese scene and its activities in advanced manufacturing
technology This he has been doing on a regular basis to IFS magazines The Industrial Robot Assembly Automation Sensor
Review and The FMS Magazine Most of the material in this book is from John Hartley's pen and represents his most
significant contributions on flexible automation in Japan to these journals over the last three years It is augmented with a few
other articles written by leading authorities on new technology in Japanese manufacturing industry *Huebner's Machine*
