Tangedal, 2021-11-06 Building on insights from the fields of textual criticism bibliography narratology authorship studies and book history The Preface American Authorship in the Twentieth Century examines the role that prefaces played in the development of professional authorship in America Many of the prefaces written by American writers in the twentieth century catalogue the shifting landscape of a more self consciously professionalized trade one fraught with tension and compromise and influenced by evolving reading publics With analyses of Willa Cather Ring Lardner F Scott Fitzgerald Ernest Hemingway Robert Penn Warren and Toni Morrison Ross K Tangedal argues that writers used prefaces as a means of expanding and complicating authority over their work and ultimately as a way to write about their careers Tangedal's approach offers a new way of examining American writers in the evolving literary marketplace of the twentieth century

Anonymity in Eighteenth-Century Italian Publishing Lodovica Braidà,2022-09-22 This book focuses on the different forms in which authorship came to be expressed in eighteenth century Italian publishing It analyses both the affirmation of the author function and above all its paradoxical opposite the use of anonymity a centuries old practice present everywhere in Europe but often neglected by scholarship The reasons why authors chose to publish their works anonymously were manifold including prudence fear of censorship modesty fear of personal criticism or simple divertissement In many cases it was an ethical choice especially for ecclesiastics The Italian case provides a key perspective on the study of anonymity in the European context contributing to the analysis of an overlooked topic in academic studies *The Voluntary Libraries of Victorian Britain: Volume 2* Keith A. Manley,2024-12-28 This volume provides an examination of the kind of free or nearly free libraries which were available to the general public in Scotland and Wales in the late nineteenth century but which were not supported by local taxation They were effectually substitutes for municipal public libraries in areas where that sort of library provision did not exist They may have been funded by wealthy philanthropists or by well wishers Attention is paid too to libraries which were aimed at specific communities such as workers in factories mills mines railway works and shops as well as book provision for policemen soldiers and sailors hospital patients nurses workhouses prisoners and domestic servants and hotel guests The voluntary public libraries of England and Wales are dealt with in Volume 1
