Never Meant To Survive Genocide And Utopias In Black Diaspora Communities:

Never Meant to Survive Joao H. Costa Vargas,2008-02-08 *Never Meant to Survive* presents a historical political and social assessment of anti black genocide and liberatory struggles that arose to resist it Based on fine grained accounts of community life at the street level Costa Vargas s work presents crucial examples of political resistance and community activism By examining two cities linked by common experiences of Blackness Los Angeles and Rio de Janeiro this book identifies a prevailing genocidal force that organizes individuals and groups across society The 1965 and 1992 riots in Los Angeles the work of the Black Panther Party and favela activists in Brazil and police brutality in struggles between black communities and the state in both L A and Rio de Janeiro all figure importantly in Costa Vargas s compelling account What emerges from this analysis is a call for the destruction of the conditions that foster the marginalization of black communities and a halt to the internal conflicts between black social groups themselves

Never Meant to Survive João H. Costa Vargas,2023-06-14 *Never Meant to Survive* presents a historical political and social assessment of anti black genocide and liberatory struggles that arose to resist it Based on fine grained accounts of community life at the street level Costa Vargas s work presents crucial examples of political resistance and community activism By examining two cities linked by common experiences of Blackness Los Angeles and Rio de Janeiro this book identifies a prevailing genocidal force that organizes individuals and groups across society The 1965 and 1992 riots in Los Angeles the work of the Black Panther Party and favela activists in Brazil and police brutality in struggles between black communities and the state in both L A and Rio de Janeiro all figure importantly in Costa Vargas s compelling account What emerges from this analysis is a call for the destruction of the conditions that foster the marginalization of black communities and a halt to the internal conflicts between black social groups themselves

Hemispheric Blackness and the Exigencies of Accountability Jennifer Gomez Menjivar,Hector Nicolas Ramos Flores,2022-12-20 *Hemispheric Blackness and the Exigencies of Accountability* examines the way Afrodescendant and Black communities use the land on which they live the rule of law and their bodies to assert their historical ontological and physical presence across South Central and North America Their demand for the recognition of ancestral lands responsive policies and human rights sheds new light on their permanent yet tenuous presence throughout the region The authors argue that by deploying a discourse of transcontinental historical continuity Black communities assert their presence in local national and international political spheres This conceptualization of hemispheric Blackness is the driving force confronting the historical loss dismissal and disparagement of Black lives across the Americas Through twelve case studies that cover a wide range of locations their work examines contemporary manifestations of sovereignty of Black body and mind Black Indigenous nexuses and national revisions that challenge more than a quincentennial of denial and state unaccountability in the hemisphere

Jump Sam C. Tenorio,2024-04-23 *Interrupting our political orthodoxies and engaging an alternative origin story of the modern carceral state* *Jump* attends to the disruptions of confinement that constitute the

racial and gendered hierarchies of the antiblack world and proposes a black anarchist politics of refusal that helps us to think dissent anew

Trial by Treatment Mary Ellen Stitt, 2025-05-20 A troubling account of the unexpected impacts of treatment based alternatives to criminal punishment Every year courts send hundreds of thousands of people to treatment based programs as alternatives to traditional punishment These alternatives known as diversion programs are widely celebrated as reforms that reduce the punishment of the mentally ill But in *Trial by Treatment* Mary Ellen Stitt shows that they have in fact expanded the reach of the criminal legal system and its power over the lives of the most vulnerable The inner workings of diversion programs are obscure partially by design and data on outcomes is hard to come by Stitt draws on two years of fieldwork in criminal courtrooms and court mandated treatment sessions as well as an original national dataset in depth interviews and experimental survey data to document the hidden impacts of diversion She shows that placing mental healthcare under the control of the courts has helped to legitimize the criminalization of illness warped treatment environments and amplified inequalities in punishment In vivid and humanizing detail *Trial by Treatment* shows how reforms that keep power and discretion in the same hands can entrench the very problems they promised to solve

To Defend This Sunrise Courtney Desiree Morris, 2023-01-13 *To Defend this Sunrise* examines how black women on the Caribbean coast of Nicaragua engage in regional national and transnational modes of activism to remap the nation's racial order under conditions of increasing economic precarity and autocracy The book considers how since the 19th century black women activists have resisted historical and contemporary patterns of racialized state violence economic exclusion territorial dispossession and political repression Specifically it explores how the new Sandinista state under Daniel Ortega and Rosario Murillo has utilized multicultural rhetoric as a mode of political economic and territorial dispossession In the face of the Sandinista state's co-optation of multicultural discourse and growing authoritarianism black communities have had to recalibrate their activist strategies and modes of critique to resist these new forms of multicultural dispossession This concept describes the ways that state actors and institutions drain multiculturalism of its radical transformative potential by espousing the rhetoric of democratic recognition while simultaneously supporting illiberal practices and policies that undermine black political demands and weaken the legal frameworks that provide the basis for the claims of these activists against the state

Corpus M. Casper, P. Currah, 2011-06-20 *Corpus* begins with the argument that traditional disciplines are unable to fully apprehend the body and embodiment and that critical study of these topics urgently demands interdisciplinary approaches The collection's 14 previously unpublished essays grapple with the place of bodies in a range of twenty first century knowledge practices including trauma surveillance aging fat food feminist technoscience death disability biopolitics and race among others The book's projected audience includes teachers and scholars of bodies and embodiment interdisciplinary scholars and practitioners and scholars interested in the any of the substantive content covered in the book The collection could be adopted in courses on the body at advanced undergraduate and graduate levels including cultural

Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners Unsettling Brazil Desirée Poets, 2024-03 In this work Desirée Poets posits that contemporary Brazil is a settler colony Based on ethnographic research and her experiences growing up in Brazil the book tells the stories of communities in Rio de Janeiro São Paulo and Belo Horizonte two quilombos two Indigenous movements and a favela to unravel the continuities and discontinuities of Brazil s settler colonial structure As Poets argues settler colonialism is renewed through expectations of Indigenous and quilombola authenticity as well as through militarization incarceration genocide and marginalization that continuously attempt to dispossess and eliminate Black and Indigenous peoples from the political landscape including in its urban centers Placing these dynamics under one analytic lens Poets navigates how the dependent settler capitalist state has related to different Indigenous and Black groups with distinct yet interrelated effects She thereby challenges the still common separation of Black and Indigenous politics and peoples in policy activism and scholarship Building on the work of Black and Indigenous organizers and thinkers from Brazil and beyond she makes the case for an intersectional and transnational lens that centers

the intellectual political and creative labor of Black and Indigenous peoples The book foregrounds their resistances to settler capitalism and dependency Common themes in Brazilian and Latin American studies emerge and Poets s theoretical contributions are relevant to other countries They also invigorate a dialogue between North America and South America The powerful narrative will be invaluable to scholars and students of Brazil and Latin America and encourage an imagining of decolonial strategies in both hegemonic and peripheral settler colonial contexts around the globe It Can Happen Here Alexander Laban Hinton,2022-10-03 If many people were shocked by Trump s 2016 election many more were stunned when months later white power extremists took to the streets of Charlottesville chanting Blood and Soil and Jews will not replace us Like Trump the Charlottesville marchers were dismissed as aberrations the momentary appearance of racists and haters who didn t represent the real U S Rather than being exceptional It Can Happen Here argues these events are symptoms of the country s long history of systemic white supremacy genocide and atrocity crimes And there is a high likelihood that such violence will occur here again This reality It Can Happen Here demonstrates is a key post mortem lesson we have learned from the 2016 2020 Trump presidency It Can Happen Here breaks new ground by raising the alarm about the on going threat of genocide and mass violence in the U S as well as considering path forward for repair Written from a public anthropology perspective it is also the field s first book to explore contemporary white power extremism in the U S
