New England And The Sea Maritime:

New England and the Sea Robert Greenhalgh Albion, William A. Baker, Benjamin Woods Labaree, 1994 This engaging history covers New England's long relationship with the sea in all its aspects Beginning with the geologic forces that have shaped New England the text describes the life and commerce of maritime New England through four centuries of war and peace bringing the story up to the 1990s Written by three distinguished maritime historians this is still the only comprehensive source available on the subject *New England and the Maritime Provinces* Stephen John Hornsby, John G. Reid, 2005 A wide reaching interdisciplinary examination of the links between New England and the Maritimes **The Maritime World of Early Modern Britain** Richard Blakemore, James Davey, 2025-10-01 Britain's emergence as one of Europe's major maritime powers has all too frequently been subsumed by nationalistic narratives that focus on operations and technology This volume by contrast offers a daring new take on Britain's maritime past It brings together scholars from a range of disciplines to explore the manifold ways in which the sea shaped British history demonstrating the number of approaches that now have a stake in defining the discipline of maritime history The chapters analyse the economic social and cultural contexts in which English maritime endeavour existed as well as discussing representations of the sea The contributors show how people from across the British Isles increasingly engaged with the maritime world whether through their own lived experiences or through material culture The volume also includes essays that investigate encounters between English voyagers and indigenous peoples in Africa and the intellectual foundations of imperial ambition Britain and the Sea Glen O'Hara, 2010-06-30 O'Hara presents the first general history of Britons' relationship with the surrounding oceans from 1600 to the present day This all encompassing account covers individual seafarers ship borne migration warfare and the maritime economy as well as the British people's maritime ideas and self perception throughout the centuries *New frontiers of marine governance in the ocean decade* Helena Calado, Catarina Frazão Santos, José Guerreiro, Jan Van Tatenhove, Marie Bonnin, 2023-08-30 **The Routledge Companion to Marine and Maritime Worlds 1400-1800** Claire Jowitt, Craig Lambert, Steve Mentz, 2020-05-21 This book has been nominated for The Mountbatten Award for Best Book in the Maritime Media Awards 2021 The Routledge Companion to Marine and Maritime Worlds 1400-1800 explores early modern maritime history culture and the current state of the research and approaches taken by experts in the field Ranging from cartography to poetry and decorative design to naval warfare the book shows how once traditional and often Euro chauvinistic depictions of oceanic mastery during the early modern period have been replaced by newer global ideas This comprehensive volume challenges underlying assumptions by balancing its assessment of the consequences and accomplishments of European navigators in the era of Columbus da Gama and Magellan with an awareness of the sophistication and maritime expertise in Asia the Arab world and the Americas By imparting riveting new stories and global perceptions of maritime history and culture the contributors provide readers with fresh insights concerning early modern

entanglements between humans and the vast unpredictable ocean With maritime studies growing and the ocean's health in decline this volume is essential reading for academics and students interested in the historicization of the ocean and the ways early modern cultures both conceptualized and utilized seas

Shipwrecks and the Bounty of the Sea David Cressy, 2022 Shipwrecks and the Bounty of the Sea is a work of social history examining community relationships law and seafaring over the long early modern period It explores the politics of the coastline the economy of scavenging and the law of wreck of the sea from the beginning of the reign of Elizabeth I to the end of the reign of George II England's coastlines were heavily trafficked by naval and commercial shipping but an unfortunate percentage was cast away or lost Shipwrecks were disasters for merchants and mariners but opportunities for shore dwellers As the proverb said it was an ill wind that blew nobody any good Lords of manors local officials officers of the Admiralty and coastal commoners competed for maritime cargoes and the windfall of wreckage which they regarded as providential godsend or entitlements by right A varied haul of commodities wines furnishings and bullion came ashore much of it claimed by the crown The people engaged in salvaging these wrecks came to be called wreckers and gained a reputation as violent and barbarous plunderers Close attention to statements of witnesses and reports of survivors shows this image to be largely undeserved Dramatic evidence from previously unexplored manuscript sources reveals coastal communities in action collaborating as well as competing as they harvested the bounty of the sea

The Autobiography of Ashley Bowen (1728-1813) Daniel Vickers, 2006-08-08 The first American sailor known to write his own autobiography Ashley Bowen remains a valuable storyteller who can speak to today's readers about the maritime world in the age of sail Ashley Bowen began his seafaring career at the age of eleven After leaving the sea Bowen spent the rest of his days as a ship rigger in Marblehead Massachusetts A witness to significant historical events including the British conquest of Canada and the American Revolution Ashley Bowen confounds today's audience with his eighteenth century interpretation of events an interpretation informed by his deeply religious beliefs and his suspicion of Yankee patriotism The Broadview edition is the first to present the story of Ashley Bowen as a continuous narrative Vickers introduction provides the context for Bowen's life in colonial New England and additional writings by Ashley Bowen and his Marblehead contemporaries are included The appendices include Bowen's diary accounts of his experiences in the 1759 British expedition against Quebec smallpox epidemics and the American Revolution
