New American Cursive I:

New American Cursive I Iris Hatfield, 2008-09-18 The New American Cursive is an easy to follow resource for teaching beginning cursive. It presents simplified letter forms using multi sensory methods to aid in the learning of motor skills necessary to write well. Developed by Iris Hatfield with over 35 years of experience in the handwriting field, the book improves the process of teaching handwriting and allows students to start at a younger age. The character Mr Meerkat is the book's guide making learning tasks fun step by step. He shows the way to draw each letter and encourages creativity. There are clear arrow directions for letter creation and plenty of shaded letters to trace for practice. The book is bound at the top for equal access for left and right handers. NAC's simplified strokes and letter forms allow first grade students to truly master beautiful cursive. Every child can master cursive in the first grade. Learning cursive early ensures that they are not slowed down or frustrated in the upper grades when they are focusing on other subjects such as grammar and composition. Designed with the first grader in mind, unnecessary strokes are eliminated. The NAC alphabet has 26 fewer strokes than the top three most common cursive programs. Letter forms are simplified but retain the classic form for legibility. The NAC natural right slant is easier for beginners and left handers. If the slant is too far right, it can be difficult for lefties. Writing absolutely vertically is tiring and can slow down the writing. The NAC program was created to be simple, clear, and effective. It focuses on accuracy and increasing legibility. A teaching guide is included. It takes students only twenty minutes of their day to practice in their NAC book.

New American Cursive 3 Memoria Press, 2011-04-19 The New American Cursive Penmanship Program is an easy to follow method for teaching cursive. The third book in the NAC Program is designed to enhance the student's development of cursive writing skills while teaching good manners and correspondence protocol. It combines proven teaching methods with the needs of the contemporary student for a fast legible script. *Cursive Handwriting for Adults* John R. Longcraft-Neal, 2019-06-18 A fun guidebook for adults looking to relearn the beautiful art of cursive handwriting. In this type tap and swipe world, you have few opportunities to write in cursive. As a result, your skills diminish. Then when the critical moment arises and you need to personally write something in your own hand, the results are not very impressive. In fact, they're embarrassingly bad. Written and designed specifically for an adult audience, this book's program for relearning cursive is guaranteed to take your penmanship to a new level. You will relearn the strokes and techniques. The instructions are easy to follow but designed for adults so they present the information in a more compelling way. You'll find no A is for apple here. The exercises are geared specifically for a more mature audience to help you relearn and practice cursive handwriting in a fun and friendly way.
