Second Language Task-Based Performance Peter Skehan, 2018-07-04 Second Language Task Based Performance is the first book to synthesize Peter Skehan's theoretical and empirical contributions all in one place. With three distinct themes explored in each section: theory, empirical studies, and assessment, Skehan's influential body of work is organized in such a way that it provides an updated reflection on the material and makes it relevant to today's researchers. Also in each section, an early publication is matched by at least one later publication, followed by a newly written commentary chapter, the combination of which provides the important function of offering a wider ranging discussion. This book is an invaluable resource for researchers interested in second language task-based research or SLA more generally.

Researching L2 Task Performance and Pedagogy Zhisheng (Edward) Wen, Mohammad Javad Ahmadian, 2019-08-28 This volume honours Peter Skehan's landmark contributions to research in Task-Based Language Teaching. Contributed both by senior academics and more recent participants in SLA and TBLT research, the chapters variously explore conceptual frameworks and methodological insights on central issues in TBLT research, theoretical debates, innovative research paradigms and methodologies as well as practical pedagogical proposals. The book provides a wide-ranging and balanced account of Skehan's work and its impact on other researchers, serving as an introduction as well as a critical review for both seasoned and novice researchers and for interested practitioners.
