Next Step Control

By Mark Patton
from [Enlightened](#) Society

Across the world various incarnations of the golden rule exist, through a multitude of misquoting methods, but one of the most ubiquitous phrases prescribed upon a segment of the human race is form of systematic mind control which has permeated every aspect of society for almost fifty years.

To objectively describe the following, one may need to disavow (preconceived) thoughts relating to the abusive nature of material.

Resolving the philosophical question of whether we are inherently good or inherently evil is paramount in shaping our perception of reality, specifically, the spiritual nature within the equation of life.

This equation is substantiated by documented U.S. government documents, numerous letters connected to the U.S. intelligence community, historical writings, researchers' knowledgeable in mind control, publications from mental health practitioners, and interviews taken from survivors (willingly subjected to a highly complex form of brainwashed mind control known as [洗脳技術](#) programming).

A word of caution for survivors of intensively systematic mind control and/or some form of studied abuse: There are numerous "triggers" in this article.

It is therefore recommended not to read it unless appropriate support systems are in place or if you have a thoroughly integrated personality.

A Brief History of Control

The Mystical Religions of ancient Egypt, Greece, India and Babylon helped lay the foundation for occultism, meaning "hidden knowledge."

One of the earliest writings giving reference to occultism is the Egyptian Book of the Dead, a compilation of texts explicitly describing methods of fortune and divination (in smaller treatises, the use of pythia oracles) and the casting of spells (prophecies, ultimately resulting in the total enslavement of the initiate).^[1]

These have been the main ingredients for a part of occultism known as Satanism, throughout the ages.

During the 11th Century, the [Roman Catholic Church](#) increased and solidified its dominion throughout Europe with the religious inquisition. Satanism survived this period of persecution, deeply entrenching itself under the veil of various occultic groups.

In 1776, a Bavarian Jesuit by the name of [Adam Weishaupt](#) was commissioned by the [House of Bavaria](#) to consolidate the power base of the Mystical Religions into what is commonly known as [The Illuminati](#), meaning "Enlightened Ones." This was an amalgamation of powerful occultic traditions, with secret societies and influential Masonic fraternities, with the desire to construct the framework for a "New World Order."

The stated goal of this efforts was to bring full universal happiness to the human race. However, their underlying intention was to gradually increase control over the masses, thus becoming masters of the world.

account of the fascist take over of America's media **ENIGMA** Glenn E. Tagatz, 2013-10-31 *Enigma A Veteran's Quest for Truth* is a memoir of the author's experiences as he was impinged by the activities of the United States military. The experiences noted span the eighty year time period of the author's life. This period covers World War II, the Korean Conflict, The Berlin Crisis, Vietnam, and the military altercations in the Middle East during the last ten years. The loss of three cousins during the bombing of Pearl Harbor resulted in the binding of my family into a unity of purpose: Defeat the axis powers. That bombing also unified the people of the United States and their allies into a cohesive unit with the same purpose: Defeat the axis powers. Patriotism resulted in the author voluntarily joining the National Guards when he became old enough to do so. This resulted in his being placed on active duty during the Berlin Crisis. What followed became a mystery that took fifty years to unravel. Because other veterans were caught in the same conundrum, the author's experiences unlikely will have applicability to many veterans. In addition, the author *Demons in the USA* Michael E. Heyes, 2024-09-24 *Demons in the USA* argues that the discourse on the demonic that developed in the nineteenth century continues to exert a powerful hold over the American spiritual imagination. The book begins by tracing the conservative Christian encounter with Spiritualism in the nineteenth century and the mode of thinking about the demonic which developed. As Spiritualism's core principles reappeared in the New Age, Christian interlocutors once more drew on this anti-Spiritualist paradigm to condemn the movement. This condemnation is absorbed by and amplified through the film *The Exorcist*. The author considers how the success of the film disseminates the anti-Spiritualist paradigm in surprising ways, entangling it with entertainment, science, and politics such that it influences psychology, the Satanic Panic of the 1980s, and the contemporary QAnon movement. This entanglement points to the broader argument of the work. While we may wish to think of a film as entertainment and thus having no bearing on reality or demonic material as religious and thus exempt from categories like politics or science, the truth is that categories are not so easily separated. The author contends that the need to enforce the boundaries of such categories and the failure to do so is a hallmark of the intellectual construct of modernity and that those who believe in demons in the contemporary United States are surprisingly modern in their views. The book grounds the importance of media to the twentieth and twenty-first century religious experience, arguing that the United States of today would not be possible without *The Exorcist* and its products. *Demons in the USA* will be of particular interest to scholars dealing with religion in America, those with a focus on religion and film, or those involved with contemporary demonology. **Consensus Trance** Paul Bondarowski, Walter H. Bowart, H. P. Albarelli Jr., Jerry E. Smith, Jüri Lina, Michael Nield, Ron Patton, Dick Sutphen, Hans Ruesch, Dani Veracity, Walter C. Vetsch, 2016-12-20 Most of us live in consensus trance, a state of consciousness produced by ideological blunting of our intellect through intensive manipulation, brainwashing, which forces us to accept a false conception of reality. And the worst is that we very rarely know if the thoughts in our head are ours or have been skillfully suggested by someone or something else, e.g. subliminals hidden behind music or flashed on a screen so fast that you don't consciously see

them or cleverly incorporated into a picture In the entire history of man no one has ever been brainwashed and realized or believed that he had been brainwashed This book is composed of the articles which present the Big Picture of mass and individual mind control and its various techniques

Conspiracy Nation Peter Knight,2002-02 An intriguing interrogation of America s long running obsession with conspiracy theories Why are Americans today so fascinated by Area 51 How did rumors that the AIDS virus originated as a weapon of biowarfare emerge Why does the Kennedy assassination provoke heated debate over fifty years after the fact and why did Donald Trump s birther theories only serve to increase his popularity with voters The origins of these ideas reveal important facets of American culture and politics Placing conspiracy thinking at the center of American history and challenging the knee jerk dismissal of conspiratorial thought as deluded and often dangerous Conspiracy Nation provides a wide ranging survey of conspiracy theories in contemporary America In the 19th century inflammatory rhetoric about slave revolts the well publicized specter of the black rapist and the formation of the Ku Klux Klan all worked as conspiracy theories to legitimate an emerging sense of national consciousness based on an ideology of white supremacy one that still persists today In our contemporary world panicked responses to increasing multiculturalism and globalization yield new notions of victimhood and new theories about conspiratorial plans for global domination Offering up a provocative array of examples ranging from alien abduction to the novels of DeLillo and Pynchon to Tupac Shakur s paranoid style Conspiracy Nation documents and unearths the workings of conspiracy in the contemporary moment Contributors Clare Birchall Jack Bratich Bridget Brown Jodi Dean Ingrid Walker Fields Douglas Kellner Peter Knight Fran Mason John A McClure Timothy Melley Eithne Quinn and Skip Willman
