Muslims, Money, and Democracy in Turkey Özlem Madi-Sisman, 2017-07-06 This book contextualizes the rise of a neo Islamic Turkish bourgeoisie class with a particular reference to the relationship between Islam and Capitalism and makes the argument for their ultimate compatibility Additionally the claim is made that the formation of this new socio economic class has been detrimental to Turkey s efforts to consolidate its democracy In order to analyze these processes an Islamic oriented young business group Economic Entrepreneurship and Business Ethic Association IGIAD was taken as a case study Drawing on fieldwork in examining IGIAD s mission vision and activities the book argues that such associations were born as a response to increasing tension between capitalism and Islam with the aim of creating a moral economy within global capitalism

The Logic of Political Survival in Turkey Çağlar Ezikoglu, 2021-02-15 This book aims at exploring the logic of political survival in Turkish politics studying the case of the AKP and using evidence from elite interviews party documents public speeches and developments and changes for exploring AKP s political survival in the chapters These evidences indicate that there are four independent variables of dependent variable which is AKP s political survival the legitimization of AKP s conservatism 2002 2007 AKP s power struggle with Kemalist elites 2007 2011 AKP s populism and authoritarianism 2011 2014 and the

instrumentalization of Islamism and nationalism under Erdogan's leadership 2014-2018 within the AKP's four terms. In other words, this research offers a cause and effect mechanism between the four different policy approaches of the AKP's four periods and the AKP's political survival. Indeed, the AKP has been the most successful political party at the point of ensuring political survival throughout its 16-year rule. In the literature, there are few studies analyzing the 16-year rule of AKP government integrally. As a result of this limitation, the original contribution of this research is that it offers a holistic approach of the AKP government between 2002 and 2018 with using the concept of political survival, which is not explored for the AKP case in the literature. *The Politics of Islamism* John L. Esposito, Lily Zubaidah Rahim, Naser

Ghobadzadeh, 2017-11-09. This book offers a nuanced and multi-layered approach towards comprehending the possibilities of democratization or likelihood of authoritarian resilience in the Muslim world. The volume highlights the complex diversity within Islamist movements and parties characterised by internal tensions, struggles, and contestations. The very existence of this diversity within and among Islamist movements and their general willingness to partake in mainstream politics signals an important transformation in the Muslim world over recent decades. It demonstrates that the Muslim world has gravitated from the simplistic focus on the compatibility or incompatibility of Islam and democracy. Islamist movements and parties embody the multiple manifestations and trajectories within political Islam. The granular case studies and theological analyses in this volume draw attention to the policy refinements, socio-political reforms, and ideological transformations engendered by Muslim intellectuals and Islamist movements and ideologues. The diverse political landscape in the Muslim world is inextricably linked to the socio-political and theological shifts within Islamism, in particular, the yearning for greater social, economic, and political justice, a yearning that lies at the core of an inclusive *wasatiyyah* Islam. *Islam and Politics (3rd edition)* Peter Mandaville, 2020-04-28. This book is an accessible and comprehensive account of political Islam in the contemporary world. Providing a broad introduction to all major aspects of the interface of Islam and politics, it combines an accessible style with sufficient depth for the academic classroom. Drawing on insights from comparative politics and Islamic studies, this book explains the complex interaction between Islam, society, the state, and processes of globalization. Preserving the previous editions' strong focus on key concepts from Islamic history as they relate to contemporary political Islam, this new edition includes coverage of important developments and updated country overviews from the Middle East, Central and South Asia, Southeast Asia, Europe, and North America. Features include: Two new case studies on Southeast Asia and Europe; Exploration of the origins and development of ISIS, Al Qaeda, and various regional affiliates of the global Salafi Jihadi movement; Coverage of contemporary debates about radicalization and violent extremism; Examination of questions of Islam's compatibility with democracy, the role of women, and Islamic perspectives on violence and conflict; Discussion of major theoretical debates in the literature on political Islam, the debate on Islamic exceptionalism, and whether Islamist politics can be understood using the conventional tools of comparative political science and International Relations. These updates ensure

the book remains the single best introduction to the topic of political Islam for students and scholars foreign policy professionals and the general reader
