Manual of Aesthetic Surgery Werner Mang, 2011-02-04. At the request of Springer Verlag Heidelberg I have written with pride and pleasure the new edition of the Manual of Aesthetic Surgery. Volumes 1: head and neck region and 2: body have been integrated into one volume which has been revised and extended with the addition of the topics: Cosmetic Aesthetic Surgery, Breast Surgery, Mini Lift, Mini Abdomen, Buttock Lift, and Tumescence Liposuction with the MicroAire System. The current trend is towards gentle surgical methods. The Mang School has as its motto: Less is more. You should not see cosmetic surgery. Aesthetic surgery is feel good surgery and not altering surgery. That should be the philosophy of this book. The first editions of both volumes of the Manual of Aesthetic Surgery had high print runs and were translated into many languages including Spanish, Russian, and Chinese. The new edition bridges a few gaps, namely breast lifting and breast reduction. These operations are described in detail in order to provide also plastic and aesthetic surgeons with standards. Standards are of crucial importance in aesthetic surgery. Results must be reproducible. Every aesthetic surgeon will then be able to build on this manual and refine his or her methods. An MTEF model based on a binding nominal expenditure ceiling covering 100 percent of government
