Schneider, 2019-05-07 A sexual relationship whether fleetingly casual or profoundly permanent involves at its core the establishment of attachment and an integrative drive to belong It can include a range of incentives coloured by physiological drives cultural contexts and personal histories It also involves the physiological processes of brain and body as they relate to the realm of the mind and subjective experience This complexity poses a challenge for clinicians when developing an integrated psychological model during therapy In this stunning new work Tony Schneider a practising clinical psychologist for over 30 years outlines a new model of psychological drives around sexual behaviour This model unifies the notions of attachment belonging desire attraction and early sexual experience to create a firm theoretical basis for psychological intervention in human sexual relationships He describes a dual biological and subjective multiple drive profile that energises and directs individual sexual behaviour He explains the various personal motives and drives that are typically involved how they relate to one another and the reasons for their inclusion in the model Integrating theory psychological research clinical insights and client case studies this unique text also outlines various sociocultural sexual scripts which along with early

sexual experiences contribute to creating the context and expectations of adult sexual behaviour Taking a middle path between the determinist thinking that frequently underpins scientific psychological research and the psychodynamic theory often used by clinicians this book is relevant to all those studying or working in the area of human sexual relationships including psychologists psychiatrists relationship counsellors social workers and sex therapists **My Body Belongs to Me** Lisa Falcon G.,2019-03-27 My Body Belongs to Me teaches children body boundaries instills early awareness and empowerment and seeks to prevent child physical sexual abuse Using easy to understand language and pictures to help relay a fundamentally important message to even the youngest reader Principles of early psychology and child development are woven throughout this text to safely begin this important conversation creating a fun but richly powerful experience and holding space for you to continue integrating healthy body boundaries in your child s life My Body Belongs to Me is part of a new generation of children s literature aimed to raise children who do not need to recover from their childhood Prevention begins with awareness and empowerment it begins at home with you Recommended for ages 3 4 and up *Foundations of the Everyday* Eran Dorfman,2014-06-04 We are used to seeing the everyday as an ordinary aspect of life something that we need to overcome whereas it actually plays a crucial role in any event of our lives This highly original book engages with a range of thinkers and texts from across the fields of phenomenology psychoanalysis and critical theory including Husserl Heidegger Merleau Ponty Freud and Benjamin together with innovative analysis of French literature and the visual arts to demonstrate that the role of repetition and deferral in modernity has changed dramatically Rather than allowing the everyday gradually to integrate singular events into its repetitive texture events are experienced now as self enclosed entities allegedly disconnected from the everyday leading to its impoverishment The book thus offers a novel understanding of being body trauma and shock but within the framework of the everyday as a concept that deserves a theory of its very own We Are in Charge of Our Bodies Lydia Bowers,2022-10-04 Support young children as they learn the importance of setting physical boundaries Being in charge of one s body is a key foundation of consent We Are in Charge of Our Bodies builds children s social and emotional skills and helps with setting physical boundaries The sixth book in the We Say What s Okay series We Are in Charge of Our Bodies follows Jackson and his classmates as they learn the names for their private body parts that they can say what s okay for their bodies and why it s important to respect others bodies Using the book as a read aloud educators and families can model language to help children as they learn how to set and respect physical boundaries The author who hosts workshops and trainings on teaching boundaries and consent for families and early childhood educators around the country offers additional activities in the back of the book We Are in Charge of Our Bodies includes an introduction to adult readers about the book s topic Digital content features a letter to share with teachers and families and a song from Peaceful Schools with downloadable audio files and sheet music We Say What s Okay Series Centered around a class of preschoolers this series helps teach young children the social and emotional skills they need to understand the

Doing and Allowing Harm Fiona Woollard, 2015-01-08 Doing harm seems much harder to justify than merely allowing harm If a boulder is rushing towards Bob you may refuse to save Bob's life by driving

your car into the path of the boulder if doing so would cost you your own life You may not push the boulder towards Bob to save your own life This principle the Doctrine of Doing and Allowing requires defence Does the distinction between doing and allowing fall apart under scrutiny When lives are at stake how can it matter whether harm is done or allowed Drawing on detailed analysis of the distinction between doing and allowing Fiona Woollard argues that the Doctrine of Doing and Allowing is best understood as a principle that protects us from harmful imposition Such protection against imposition is necessary for morality to recognize anything as genuinely belonging to a person even that person s own body As morality must recognize each person s body as belonging to her the Doctrine of Doing and Allowing should be accepted Woollard defends a moderate account of our obligations to aid tackling arguments by Peter Singer and Peter Unger that we must give most of our money away and arguments from Robert Nozick that obligations to aid are incompatible with self ownership
