Kumar Krishna Mohan Mathur, Shiv Shubhang Mathur Nandita Narayan Mathur, 2009 *Japanese Multinationals in the Global Economy* Paul W. Beamish, Andrew Delios, Donald J. Lecraw, 1997 Japanese Multinationals in the Global Economy goes beyond traditional methods of research in international business by providing new simple data comparisons on the global operations of Japanese firms A key aim of this book is to encourage other researchers to explore a new data source and expand and shape their own studies on multinationals This book will be a significant addition to the debate on the behaviour of multinational firms because it avoids the problems and restrictions involved using national government data and individual case studies The book presents key information based on the most extensive samples of multinationals at the subsidiary level using both cross sectional data and data over time The authors provide a direct comparison of US subsidiaries using the established Harvard Multinational Enterprise database and Japanese subsidiaries using the much less well known Toyo Keizai annual data Key features include a summary description of the Toyo Keizai database comparisons of Japanese and US multinationals based on the dates the subsidiaries entered the parent's system annual sales levels and the equity level of the subsidiary the data includes employment levels expatriate management ownership patterns and joint venture ownership structures new data on the performance of Japanese subsidiaries is measured using several dimensions and illustrates important recent trends After each data set the authors briefly discuss the information available pointing the way for new research and more in depth analysis This book will be a vital source for international business researchers and corporate managers as well as government agencies and international organizations concerned with multinational enterprises trade theory and business strategy international economics organizational behaviour and business history **Multinational Firms and International Relocation** Peter J. Buckley, Jean Louis Mucchielli, 1997 Recoge 1 Introduction 2 European industrial relocations in low wage countries policy and theory debates 3 Multinational firm strategies and the impact of their location decisions 4 Low wage countries and trade with the European Union 5 International relocation strategies of Italian firms 6 US direct investment abroad and US exports in the manufacturing sector some empirical results based on cross sectional analysis **Regional and Global Multinationals** Christoph Czychon, 2021-06-29 Based on their ability to facilitate interdependencies across the borders of national and regional markets multinationals enterprises MNEs act as the key drivers of world trade and investment activities While recent global challenges additionally highlight the need to explain and assess the status and progress of internationality regionality previous research renders the concept of firm level globalization as a special but not the general case Christoph

Czyżon dedicates specific attention to the research on regional and global MNEs based on an extensive and rigorous review of the existing academic literature as well as the analysis of 2005-2015 empirical data from the European context with a focus on CAC40 and DAX30 listed firms. In doing so, the author offers insights and results that stand in contrast to the original narrative of the debate and presents a comprehensive and updated perspective on regional and global MNEs.
