Musical Performance Stan Godlovitch, 2002-01-31 Most music we hear comes to us via a recording medium on which sound has been stored Such remoteness of music heard from music made has become so commonplace it is rarely considered Musical Performance A Philosophical Study considers the implications of this separation for live musical performance and music making Rather than examining the composition or perception of music as most philosophical accounts of music do Stan Godlovitch takes up the problem of how the tradition of active music playing and performing has been challenged by technology and what problems this poses for philosophical aesthetics Where does the value of musical performance lie Is human performance of music a mere transfer medium Is the performance of music more expressive than recorded music Musical Performance poses questions such as these to develop a fascinating account of music today musicians but via some recording medium on which sound has been stored

Musical Performance John Rink, 2002-12-12 Table of contents [The Normativity of Musical Works: A Philosophical Inquiry](#) Alessandro Arbo, 2021-05-25 What do we mean when we talk about the identity of a musical work and what does such an identity involve What in fact are the properties that make it something worth protecting and preserving These issues are not only of legal relevance they are central to a philosophical discipline that has seen considerable advances over the last few decades musical ontology Taking into account its main theoretical models this essay argues that an understanding of the ontological status of musical works should acknowledge the irreducible ambivalence of music as an art of the trace and as a performative art It advocates a theory of the musical work as a social object and more specifically as a sound artefact that functions aesthetically and which is based on a trace informed by a normative value Such a normativity is further explored in relation to three primary ways of conceiving and fixing the trace orality notation and phonography [The Oxford Handbook of Western Music and Philosophy](#) Tomás McAuley, Nanette Nielsen, Jerrold Levinson, Ariana Phillips-Hutton, 2021 The Oxford Handbook of Western Music and Philosophy celebrates the ways in which musicians have historically called upon philosophy as a source of inspiration and encouragement and scholars of music through the ages have turned to philosophy for insight into music and into the worlds that sustain it [The Routledge Companion to Philosophy and Music](#) Theodore

Gracyk, Andrew Kania, 2011-02-14 The Routledge Companion to Philosophy and Music is an outstanding guide and reference source to the key topics subjects thinkers and debates in philosophy and music Essential reading for anyone interested in philosophy music and musicology

What makes a performance of one piece and not another Is it possible to perform old music authentically Can ethnic music influenced by foreign sources and presented to tourists genuinely reflect the culture s musical and wider values Can recordings substitute faithfully for live performances These are the questions considered in *Musical Works and Performances* Part One outlines the nature of musical works their relation to performances and their notational specification Works for performance differ from ones that are merely for playback and pieces for live rendition are unlike those for studio performance Pieces vary in the number and kind of their constitutive properties The identity of musical works goes beyond their sonic profile and depends on their music historical context To be of a given work a performance must match its contents by following instructions traceable to its creation Some pieces are indicated via exemplars but many are specified notationally Scores must be interpreted in light of notational conventions and performance practices they assume Part Two considers authenticity in performance musical traditions and recordings A performance should follow the composer s instructions Departures from the ideal are tolerable but faithfulness is central to the enterprise of work performance not merely an interpretative option When musical cultures interact assimilation from within differs from destruction from without Even music subject to foreign influences can genuinely reflect the musical traditions and social values of a culture however Finally while most works are for live performance most performances are experienced via recordings which have their own distinctive characteristics This comprehensive and original analysis of musical ontology discusses many kinds of music and applies its conclusions to issues as diverse as the authentic performance movement the cultural integrity of ethnic music and the implications of the dominance of recorded over live music
