Musings On Love A Tanka Collection:

Being in Love Judith Pickering, 2014-02-25 Finding true love is a journey of transformation obstructed by numerous psychological obstacles Being in Love expands the traditional field of psychoanalytic couple therapy and explores therapeutic methods of working through the obstacles leading to true love Becoming who we are is an inherently relational journey we uncover our truest nature and become most authentically real through the difficult and fearful yet transformative intersubjective crucibles of our intimate relationships In this book Judith Pickering draws comparisons between Bion's concept of becoming in O and being in love She searches for pathways that lead away from relational confusion towards the discovery of genuine transformational relationships and works towards finding better ways of relating to one another This is achieved by encouraging couples to enjoy the actual presence humanity otherness and particularity of each other rather than expecting a partner to conform to our own expectations projections desires and presuppositions Pickering draws on clinical material contemporary psychoanalysis cultural themes from the worlds of mythology and literature and a wealth of therapeutic techniques in this fresh approach to couple therapy Being in Love will therefore interest students and practitioners of psychoanalysis psychology and couple therapy as well as all of those seeking to be more authentic in their relationships

Stragglng Into Winter Kathy Kituai,2009-01-22 how truthful the trees outstretched and bare this winter no leaves to clothe them how honest your nakedness here beside me in old age A serene and very human voice emerges from a year long tanka journal in which the changing seasons reflect the poet s thoughts on illness love and world events The great delight of the tanka is the jewel like images it produces how a bowl captures moonlight willow twigs flaring at sunset a poet wandering into a fog pumpkin shoots playing checkers when the doorbell rings Poems that chronicle the progress of illness the black butterfly of cancer alternate with visiting wild birds and animals and moments of humour even in the hospital where crutches are stolen by hospital terrorists musings on the Israel Palestine tragedy and the nature of old age and love Kituai may be one of those rare writers who reject the idea that illness and death are things that have to be worked through and then left behind rather by beginning and ending with winter she suggests death and loss are where we begin and what we work towards There s peace in that thought **Montemora** ,1978 **The Inside Story** Paul T. Brockelman,1992-01-01 This book explores what is meant by claims of religious understanding and truth It argues that at the end of the twentieth century we are undergoing a revolution in our thinking about ourselves and our place in nature and that the worldview pervading modern culture is dissolving because it has marginalized and hindered authentic religious understanding and practice It has spiritually degraded and destroyed the natural environment upon which it depends The book describes how this situation developed and proposes an alternative postmodern narrative concept of religious understanding that may help us to transcend these spiritual and ecological problems This model of religious truth explores a new cosmological story that has emerged over the past twenty five years It is a story that will enrich and deepen our spiritual experience while helping us

cope with possibly the most disastrous and dangerous consequence of modernity the present worldwide ecological crisis
