Sexual Decision-making and AIDS in Africa Muthoni A. Mathai, 2006 **Russian Symbolism in Search of Transcendental Liquescence** Anastasia Kostetskaya, 2019-06-24 The book examines Russian symbolist texts and turns the focus from their traditional historic cultural interpretations to analyze the symbolist cognitive aesthetics aesthetics that govern links between poetry art and cinema and the sensory emotional imagery they evoke This aesthetics inextricably map mystical transcendence to a spiritual world a realibus ad realiora through fluid transmutation Anastasia Kostetskaya presents an innovative cross disciplinary analysis of iconicity a relationship of resemblance between the artistic form and its meaning the possibilities of which symbolist artists explored to create sublime emotional experiences for the reader or viewer She challenges the strictly dualistic and hierarchical terms of traditional symbolist concepts This study demonstrates that this counterdualistic tendency cognitively extends from liquescence a perception of fluid continuity between people and water This analysis of interconnected symbolist media shows how symbolists rely on blending in their attempts to engender emotional flux through the pliable form Fusing cognitivist and historic cultural approaches in fluidly connected art modes this book represents chronological conceptual and aesthetic continuity from poetry by Konstantin Bal mont 1867 1942 paintings by Viktor Borisov Musatov 1870 1905 and cinematography by Evgenii Bauer 1865 1917 The Strange Case of Rabin Jynuri G.A. Barker, 2007-02-26 The Strange Case of Rabin Jynuri is a journey into the terra incognita of the mind Rabin was an involuntary guest of a state mental hospital A therapist determined to get at the source of Mr Jynuri s quixotic and delusional mind was convinced he had stumbled across a rare case of Megalomaniacal Munchausen s Disease Rabin would prove to be the case of a lifetime for the heroic Dr D W Dedicated to meet the challenge he constructed a case file which was intended to support his thesis Psychophysiosophy and the treatment of integrated neurological and psychiatric disorders Beginning in the summer of 1967 and continuing up to the time of his murder in the winter of 1968 Dr D W worked on a system of mind body therapy He was a pioneer in a field of neuroscience which incorporates various modern biophysical principles alongside ancient practices of holistic healing Transcripts of colorful tape recorded sessions evolve into picturesque articulations which lead our minds into a field of splendor Within the mind of Rabin there is a valley of the lord a

golden orchis a golden family as well as a whole lot of otherworldly realms of weirdness and wonder It was not an easy task for the good Doctor but he persevered and in the end his work survived to tell its amazing story Readers are urged to partake in the struggle that ensues over a piece of gold one tiny piece of gold that resides at the center of a madman s consciousness It is an epic battle waged between a patient that dedicated his life in search of a sacred flower and the doctor determined to bring him back to reality Reality becomes obscured as a mystery arises from the battlefield the line drawn between religion and science dissolves The doctor finds himself blinded unable to know which side of black and white the gray was that he was standing in as you will soon come to see it is not an easy distinction to make in Rabin s world It is an exercise in self discovery of finding your way in the dark of coming to know what it is that eclipses the mind and troubles the soul
