Meditations, Objections, and Replies René Descartes, 2006-03-30 This edition features reliable accessible translations useful editorial materials and a straightforward presentation of the Objections and Replies including the objections from Caterus Arnauld and Hobbes accompanied by Descartes replies in their entirety The letter serving as a reply to Gassendi in which several of Descartes associates present Gassendi s best arguments and Descartes replies conveys the highlights and important issues of their notoriously extended exchange Roger Ariew s illuminating Introduction discusses the Meditations and the intellectual environment surrounding its reception **The Elusive God** Yakir Z. Shoshani, Asher Z. Yahalom, 2019-10-18

What meanings can be ascribed to the existence of God This question has been investigated by prominent thinkers throughout the ages and led several of them to suggest arguments for proving this existence and explaining its meaning The first part of this book reviews some of these proofs and their criticism Following this discussion it suggests a new meaning and characterization of God as a connector between different types of entities This idea sheds new light on several interesting problems including the emergence of plurality in reality from the unity of God The second section deals with God and the human mind and focuses mainly on the mind body bifurcation problem the problem of free will and the existence of consciousness and soul The third part discusses several problems associated with God and the world Special emphasis is laid here upon God and the laws of nature the creation of the universe and the impact of modern Physics on the belief in God s existence **THIRTEEN REASONS WHY YOU SHOULD KEEP LIVING** Edward D. Andrews, Heather Freeman, 2017-07-04

IS THERE A REBEL IN THE HOUSE? Edward D. Andrews, 2017-02-09 **The Eucharist in Modern Philosophy** Xavier Tilliette, 2022-12-27 The Eucharist in Modern Philosophy is one of the last books written by the renowned Jesuit philosopher Xavier Tilliette 1921 2018 and the first to be translated into English Jonathan Martin Ciraulo the translator also provides an introduction to the thought of Tilliette and the content of this book while Cyril O Regan provides the foreword noting the particular intellectual characteristics of Tilliette and his analysis of eucharistic philosophies In addition to being known as one of the foremost experts on the German Idealist Friedrich Schelling Tilliette wrote voluminously on the relationship between modern philosophy and theology particularly concerning the way in which Christology is central to the development of modern philosophy In this volume he extends that project to look at how various philosophers such as Descartes Leibniz Hegel Blondel and Marion as well as poets and mystics such as de Chardin Simone Weil and Paul Claudel thought extensively about the question of the Eucharist The result is an enormous diversity of Eucharistic thought from Descartes attempt to justify transubstantiation in light of his philosophical revolution to Feuerbach s supposed exposure of the contradiction inherent to sacramentality to Antonio Rosmini s eucharistic piety and speculation to Maurice Blondel s recovery and expansion of Leibniz s notion of the substantial bond Tilliette shows that this philosophical conversation about the Eucharist is a living tradition as the aporias and failures of one generation provide stimulus for all

that follows Much of the work is largely historical showing in great detail the context of each particular eucharistic philosophy but Tilliette also evaluates the relative fruitfulness of the various eucharistic theories for philosophy theology and the life of the Church This book demonstrates that the Eucharist has been and will likely continue to be a major impetus for philosophical reflection *Method, Intuition, and Meditation in Descartes' Meditations on First Philosophy* Stanley Tweyman,2023-07-07 This book deals with Descartes efforts in his Meditations to discover the first principles of human knowledge that is what must be known before anything else can be known In order for these principles to be first principles they cannot be conclusions obtained through deductive reasoning Further Descartes insists that these first principles cannot be known through the senses but only through intuition or meditation our only cognitive faculties for grasping self evident first principles This book provides Descartes reasons for rejecting the senses as the source of these first principles and offers textual support for the role of intuition and meditation in apprehending the first principles of human knowledge Although the bulk of the book is largely exegetical in nature the last chapter proceeds more critically to show the failures of Descartes approach *The Routledge Handbook of International Law and Anthropocentrism* Vincent Chapaux,Frédéric Mégret,Usha Natarajan,2023-06-15 This handbook explores contextualises and critiques the relationship between anthropocentrism the idea that human beings are socially and politically at the centre of the cosmos and international law While the critical study of anthropocentrism has been under way for several years it has either focused on specific subfields of international law or emanated from two distinctive strands inspired by the animal rights movement and deep ecology This handbook offers a broader study of anthropocentrism in international law as a global legal system and academic field It assesses the extent to which current international law is anthropocentric contextualises that claim in relation to broader critical theories of anthropocentrism and explores alternative ways for international law to organise relations between humans and other living and non living entities This book will interest international lawyers environmental lawyers legal theorists social theorists and those concerned with the philosophy and ethics of ecology and the non human realms Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by University of Gothenburg and Lund University *A Modest Certainty* Frank D. Schubert,2012-10-04 The central problem of philosophy is the problem of certainty What does it mean to be sure Are there ideas beyond the possibility of error or refutation What does it mean for a notion to be incorrigible In this book Frank D Schubert squarely addresses the question of whether there is a single standard of certainty that can be applied to such disparate areas as logic mathematics politics religion familial tribal commitments and science Schubert proposes a common standard for assessing certainty the certainty of knowing one's own personal proper name as a standard that can establish common ground within each widely disparate area The result is a new philosophy in a grand manner and a powerful ethical proposal for our time **Terminator and Philosophy** William Irwin,Richard Brown,Kevin S. Decker,2009-05-13 Are

cyborgs our friends or our enemies Was it morally right for Skynet to nuke us Is John Connor free to choose to defend humanity or not Is Judgment Day inevitable The Terminator series is one of the most popular sci fi franchises ever created captivating millions with its edgy depiction of the struggle of humankind for survival against its own creations This book draws on some of history s philosophical heavy hitters Descartes Kant Karl Marx and many more Nineteen leather clad chapters target with extreme prejudice the mysteries surrounding intriguing philosophical issues raised by the series including the morality of terminating other people for the sake of peace whether we can really use time travel to protect our future resistance leaders in the past and if Arnold s famous T 101 is a real person or not You ll say Hasta la vista baby to philosophical confusion as you develop a new appreciation for the complexities of John and Sarah Connor and the battles between Skynet and the human race

Living Thought Roberto Esposito, 2012-12-31 The work of contemporary Italian thinkers what Roberto Esposito refers to as Italian Theory is attracting increasing attention around the world This book explores the reasons for its growing popularity its distinguishing traits and why people are turning to these authors for answers to real world issues and problems The approach he takes in line with the keen historical consciousness of Italian thinkers themselves is a historical one He offers insights into the great unphilosophical philosophers of life poets painters politicians and revolutionaries film makers and literary critics who have made Italian thought from its beginnings an impure thought People like Machiavelli Croce Gentile and Gramsci were all compelled to fulfill important political roles in the societies of their times No wonder they felt that the abstract vocabulary and concepts of pure philosophy were inadequate to express themselves Similarly artists such as Dante Leonardo Da Vinci Leopardi or Pasolini all had to turn to other disciplines outside philosophy in order to discuss and grapple with the messy constantly changing realities of their lives For this very reason says Esposito because Italian thinkers have always been deeply engaged with the concrete reality of life rather than closed up in the introspective pursuits of traditional continental philosophy and because they have looked for the answers of today in the origins of their own historical roots Italian theory is a living thought Hence the relevance or actuality that it holds for us today Continuing in this tradition the work of Roberto Esposito is distinguished by its interdisciplinary breadth In this book he passes effortlessly from literary criticism to art history through political history and philosophy in an expository style that welcomes non philosophers to engage in the most pressing problems of our times As in all his works Esposito is inclusive rather than exclusive in being so he celebrates the affirmative potency of life
