Qualitative research design is continually evolving. It is not only more established in disciplines beyond the traditional social sciences in which it is a standard choice but also just as impacted by the changes in what data technologies and approaches researchers are using. This Handbook takes readers through the foundational theories, functions, strategies, and approaches to qualitative research design, before showcasing how it negotiates different data and research environments and produces credible, actionable impact beyond the study. Containing contributions from over 90 top scholars from a range of social science disciplines, this Handbook is not just an anthology of different qualitative research designs and how/when to use them; it is a complete exploration of how and why these designs are shaped and how/why and into what they are evolving. This is a valuable resource for Master's and PhD level students, faculty members, and researchers across a wide range of disciplines such as health, nursing, psychology, social work, sociology, and education.

Volume One: Part 1: Concepts of Designing Designs in Qualitative Research; Part 2: Theories and Epistemological Contexts of Designing Qualitative Research; Part 3: Elements of Designing Qualitative Research; Part 4: Basic Designs and Research Strategies in Qualitative Research; Part 5: Mixing Methods in Designing Qualitative Research.

Volume Two: Part 6: Designing Qualitative Research for Specific Kinds of Data; Part 7: Designing Qualitative Online and Multimodal Research; Part 8: Designing Qualitative Research for Specific Groups and Areas; Part 9: Designing Qualitative Research in Disciplinary Fields; Part 10: Designing Qualitative Research for Impact.

Designing and Conducting Research in Education Clifford J. Drew, Michael L. Hardman, John L. Hosp, 2008. The research process in this book begins with identification of the research question and proceeds through each step including planning, data collection, actual collection, and analysis of the data, and writing the report. This text proceeds through multiple methodologies including experimental and non-experimental, quantitative and qualitative. At every step, the emphasis is on planning and executing the study. Key features: o Simulations and feedback that may be used in class sessions for both individual and small group participation; o Pedagogy to help students plan and conduct a research project in an actual classroom; o Examples that demonstrate and explain what constitutes good and poor research questions; o Case studies and real-life examples related to education; o A Student Web site that provides students with the opportunity to interact with contemporary articles. This book provides an introduction to research that emphasizes the fundamental concepts of planning and design. It is designed to be a core text for the very first course on research methods.
