considered to be the first documented account of an individual miraculously and physically receiving the five wounds of Christ. The early thirteenth century appearance of this miracle however is not as unexpected as it first seems. Interpretations of Galatians 6:17 'I bear the marks of the Lord Jesus Christ in my body' had been circulating since the early Middle Ages in biblical commentaries. These works perceived those with the stigmata as metaphorical representations of martyrs bearing the marks of persecution in order to spread the teaching of Christ in the face of resistance. By the seventh century the meaning of Galatians 6:17 had been appropriated by bishops and priests as a sign or mark of Christ that they received invisibly at their ordination. Priests and bishops came to be compared to soldiers of Christ who bore the brand stigmata of God on their bodies just like Roman soldiers who were branded with the name of their emperor. By the early twelfth century crusaders were said to bear the actual marks of the passion in death and even sometimes as they entered into battle.

The Stigmata in Late Medieval and Early Modern Europe traces the birth and evolution of religious stigmata and particularly of stigmatic theology as understood through the ensemble of theological discussions and devotional practices. Carolyn Muessig assesses the role stigmatics played in medieval and early modern religious culture and the way their contemporaries reacted to them. The period studied covers the dominant discourse of stigmatic theology that is from Peter Damian's eleventh century theological writings to 1630 when the papacy officially recognised the authenticity of Catherine of Siena's stigmata.

A Companion to the Waldenses in the Middle Ages Marina Benedetti, Euan Cameron, 2022-06-27 The medieval dissenters known as Waldenses named after their first founder Valdes of Lyons have long attracted careful scholarly study especially from specialists writing in Italian, French and German. Waldenses were found across continental Europe from Aragon to the Baltic and East Central Europe. They were long lived, resilient and diverse. They lived in a special relationship with the prevailing Catholic culture making use of the Church's services but challenging its claims. Many Waldenses are known mostly or only because of the punitive measures taken by inquisitors and the Church hierarchy against them. This volume brings for the first time a wide ranging multi-authored interpretation of the medieval Waldenses to an English language readership across Europe and over the four centuries until the Reformation. Contributors: Marina Benedetti, Peter Biller, Luciana Borghi, Cedrini Euan Cameron, Jacques Chiffolleau, Albert de Lange, Andrea Giraudo, Franck Mercier, Grado Giovanni Merlo, Georg Modestin, Martine Ostorero, Damian J. Smith, Claire Taylor and Kathrin Utz Tremp.

Practising Community in Urban and Rural Eurasia (1000-1600), 2021-11-01 This volume explores social practices of framing, building and enacting community in urban/rural relations across medieval Eurasia. Introducing fresh comparative perspectives on practices and visions of community, it offers a thorough source-based examination of medieval communal life in its sociocultural complexity and diversity in Central and Southeast Europe, South Arabia and Tibet. As multi-layered social phenomena, communities constantly formed, restructured and negotiated internal allegiances while sharing a topographic living space and joint notions of belonging. The volume challenges disciplinary paradigms and proposes an interdisciplinary set of low threshold categories and tools for cross

cultural comparison of urban and rural communities in the Global Middle Ages Contributors are Maaïke van Berckel, Hubert Feiglstorfer, Andre Gingrich, Károly Goda, Elisabeth Gruber, Johann Heiss, Kate Ina Horn, Kóv Eirik, Hovden Christian, Jahoda Christiane, Kalantari Odile, Kommer Fabian, Kömmeler Christina, Lutter Judit, Majorossy Ermanno, Orlando and Noha Sadek

Daily Life of Women in Medieval Europe Belle S. Tuten, 2022-08-23 This book is an introduction to the everyday lives of medieval European women: how they ate and slept, what their work was like, and the many factors that shaped their experiences. Ordinary people are often hard to see in the historical record. This resource for students reveals the everyday world of the Middle Ages for women: sex, marriage, work, and power. Using up-to-date scholarship from both archaeology and history, this book covers major daily concerns for medieval people: their understanding of the world, their relationships with others, and their place in society. It attempts to clarify what we know and what we do not know about women's daily lives in the Western European Middle Ages between approximately 500 and 1500 CE. The book's focus is everyday life, so the topics are organized around women's chores, expectations, and difficulties, especially with regard to sexuality and childbirth. In addition to broad survey information about the Middle Ages, the book also introduces major women writers and thinkers and provides some examples of their work, giving the reader an opportunity to engage with the women themselves.

Vengeance in the Middle Ages Paul R. Hyams, 2016-03-03 This volume aims to balance the traditional literature available on medieval feuding with an exploration of other aspects of vengeance and culture in the Middle Ages. A diverse assortment of interdisciplinary essays from scholars in Europe and North America contest or enlarge traditional approaches to and interpretations of vengeance in the Middle Ages. Each essay attempts to clarify the multifaceted experience of vengeance within a specific medieval context: a particular region, a particular text, a particular social movement. By asking what relationship a distinct factor like authorship or religion has with the concept of vengeance, each author points towards the breadth of meanings of medieval vengeance and to the heart of the deeper and broader questions that spur scholarly interest in the subject. Geographically, the essays in the volume highlight Western Europe, particularly the Anglo-Norman world, Scotland, Ireland, Spain, and Portugal. Thematically, the essays are concerned with heroic cultures of vengeance, vengeance as a legal and political tool, Christian justification and expression of vengeance, literature and the distinction between discourse and reality, and the emotions of vengeance. Methodologically, these interdisciplinary studies incorporate tools borrowed from anthropology, the study of emotion, and modern social and literary theories. This volume is aimed at professional scholars and graduate students within the broad field of medieval studies, including the subfields of history, literature, and religious studies, and is intended to inspire further research on medieval vengeance. However, this collection will also prove interesting to non-medievalists interested in the history of emotion, the justification of human conflict, and the concept of feud and its applicability to specific historical periods.
