Integrative Therapies for Fibromyalgia, Chronic Fatigue Syndrome, and Myofascial Pain Celeste Cooper, Jeffrey Miller, 2010-02-05 A guide to coping with fibromyalgia, myofascial pain, and chronic fatigue syndrome. Reveals how to deal with each disorder and how treatments can interact or aggravate if more than one disorder is present. Offers techniques to dispel the side effects created by these illnesses. Fibromyalgia, chronic myofascial pain, and chronic fatigue syndrome are often seen as interchangeable conditions, a belief held even by many health care providers. Nothing could be further from the truth; however, they do often coexist. Knowing if more than one of these disorders is present is extremely important because the treatment for one of them can often exacerbate the problems caused by the others. Written by a registered nurse and a psychologist who has been treating these conditions since 1994, this book presents an integrative medical approach to these three disorders with a strong emphasis on utilizing and strengthening the mind-body connection to restore well-being. The authors provide a thorough guide to numerous treatment options, from diet, exercise, and herbs to mindfulness, meditation, chi kung, and nonsteroidal anti-inflammatory drugs (NSAIDs). They also offer techniques to dispel the brain fog that these disorders often create and show how to overcome the resultant obstacles to effectively communicating with your doctor. The additional information included on the psychological issues that accompany these chronic pain disorders allows this integrative treatment guide to open the door not only to physical recovery but also to emotional and mental well-being.

An Update on Adult Development Theory: New Ways of Thinking About the Life Course M. Carolyn Clark, Rosemary S. Caffarella, 2011-10-13 Our approach to adult learners and the learning process is shaped by our knowledge of how adults change and develop across the life span. This issue of *New Directions for Adult and Continuing Education* reviews the latest work in adult developmental theory in the biological, psychological, sociocultural, and integrated domains and explores the implications of this work for adult education. Chapters examine how gender, race, and sexual orientation affect our sense of self, explore spiritual development and theories of aging, and offer a way of understanding development in terms of how people use narrative to organize and make meaning of their experiences.
