Quakers In The Israeli Palestinian Conflict Quakers In The Israeli Palestinian Conflict:

Quakers in the Israeli-Palestinian Conflict Nancy Elizabeth Gallagher, 2007 Early efforts by peacemakers in the world's longest refugee crisis **The Quaker World** C. Wess Daniels, Rhiannon Grant, 2022-11-04 The Quaker World is an outstanding comprehensive and lively introduction to this complex Christian denomination Exploring the global reach of the Quaker community the book begins with a discussion of the living community as it is now in all its diversity and complexity The book covers well known areas of Quaker development such as the formation of Liberal Quakerism in North America alongside topics which have received much less scholarly attention in the past such as the history of Quakers in Bolivia and the spread of Quakerism in Western Kenya It includes over sixty chapters by a distinguished international and interdisciplinary team of contributors and is organised into three clear parts Global Quakerism Spirituality Embodiment Within these sections key themes are examined including global Quaker activity significant Quaker movements biographies of key religious figures important organisations pacifism politics the abolition of slavery education industry human rights racism refugees gender disability sexuality and environmentalism The Quaker World provides an authoritative and accessible source of information on all topics important to Quaker Studies As such it is essential reading for students studying world religions Christianity and comparative religion and it will also be of interest to those in related fields such as sociology political science anthropology and ethics **Religion, Politics, and the Origins of Palestine Refugee Relief** A.

Romirowsky, A. Joffe, 2013-12-18 This book examines the leading role of the Quaker American Friends Service Committee in the United Nations relief program for Palestine Arab refugees in 1948-1950 in the Gaza Strip Using archival data oral histories and biographical accounts it provides a detailed look at internal decision making in an early non governmental organization The Arab-Israeli Conflict in American Political Culture Jonathan Rynhold, 2015-02-23 This book surveys discourse and opinion in the United States toward the Arab Israeli conflict since 1991 Contrary to popular myth it demonstrates that US support for Israel is not based on the pro Israel lobby but rather is deeply rooted in American political culture That support has increased since 9/11 However the bulk of this increase has been among Republicans conservatives evangelicals and Orthodox Jews Meanwhile among Democrats liberals the Mainline Protestant Church and non Orthodox Jews criticism of Israeli policies toward the Palestinians has become more vociferous This book works to explain this paradox

A Liminal Church Maria Chiara Rioli, 2020-08-25 The history of the Palestine War does not only concern military history It also involves social humanitarian and religious history as in the case of the Roman Catholic Diocese of Jerusalem A Liminal Church offers a complex narrative of the Latin patriarchal diocese commonly portrayed as monolithically aligned with anti Zionist and anti Muslim positions during the long year of 1948 Making use of largely unpublished archives in the Middle East Europe and the United States including the recently released Pius XII papers Maria Chiara Rioli depicts a church engaged in multiple and sometimes contradictory pastoral initiatives amid harsh battles relief missions for Palestinian refugees

theological reflections on Jewish converts to Catholicism political relations with the Israeli and Jordanian authorities and liturgical responses to a fluid and uncertain scenario The pieces of this history include the Jerusalem grand mufti s appeal to Pius XII to support the Arab cause the Catholic liturgies for peace and international mobilization during the Palestine War and Suez crisis refugees petitioning the patriarch for aid and Jewish converts establishing Christian kibbutzim New archival collections and records reveal hidden aspects of the lives of women children and other silenced actors faith communities and religious institutions during and after 1948 connecting narratives that have been marginalized by a dominant historiography more focused on military campaigns or confessional conflicts A Liminal Church weaves diocesan history with global history In the momentous decade from 1946 to 1956 the study of the transnational Jerusalem Latin diocese as split between Israel Jordan Egypt and Cyprus with ties to diaspora and religious international networks and comprising clergy from all over the world attests to the possibilities of contrapuntal narratives reintroducing complexity to a deeply and painfully polarized debate exposing false assumptions and situating changes and ruptures in a long term perspective

Quaker Studies: An Overview C. Wess Daniels, Robynne Rogers Healey, Jon R. Kershner, 2018-03-20 In this introductory volume to the Brill Research Perspectives series on Quaker Studies Quaker Studies An Overview The Current State of the Field C Wess Daniels Robynne Rogers Healey and Jon Kershner investigate Quaker Studies divided into the three fields of history theology and philosophy and sociology With a focus on schisms transatlantic networks colonialism abolition gender and equality and pacifism from Quaker origins onward Healey explores the rich diversity and complexity of research and interpretation that has emerged in Quaker history Kershner explores comparisons and divergences in contemporary Quaker theology and philosophy Special attention is paid to Quaker biblical hermeneutics mysticism ethics epistemology and Global Quakerism Daniels looks at the sociology of Quakerism as a new field of study that has only recently begun to be explored and developed He surveys the field of sociological work done within Quakerism from the 1960s to the present day

Religions in Movement Robert Hefner, John Hutchinson, Sara Mels, Christiane Timmerman, 2013-10-23 There has long been a debate about implications of globalization for the survival of the world of sovereign nation states and the role of nationalism as both an agent of and a response to globalization In contrast until recently there has been much less debate about the fate of religion Globalization has been viewed as part of the rationalization process which has already relegated religion to the dustbin of history just as it threatens the nation as the world moves toward a cosmopolitan ethics and politics The chapters in this book however make the case for the salience and resilience of religion often in conjunction with nationalism in the contemporary world in several ways This book highlights the diverse ways in which religions first and foremost make use of the traditional power and communication channels available to them like strategies of conversion the preservation of traditional value systems and the intertwining of religious and political power Nevertheless challenged by a more culturally and religiously diversified societies and by the growth of new religious sects contemporary religions are also forced to let go of these well

known strategies of preservation and formulate new ways of establishing their position in local contexts This collection of essays by established and emerging scholars brings together theory driven and empirically based research and case studies about the global and bottom up strategies of religions and religious traditions in Europe and beyond to rethink their positions in their local communities and in the world

The Politics of Service Daniel Maul, 2024-07-22 This book provides the first comprehensive history of the American Friends Service Committee AFSC the central aid agency of the Religious Society of Friends or Quakers from 1917 to 1945 Implying a thoroughly transnational approach it sheds a light on the important role American Quakers played in the emergence of a humanitarian sector both within the USA and beyond Through the Quaker lens the book addresses important tensions inherent to the history of humanitarianism in the 20th century Following the AFSCs aid operations from the First World War through post war Germany and Soviet Russia to the Spanish Civil War and into the Second World War it deals with the AFSC s conflicting roles as a specifically American aid organization on the one hand and its position within transnational religious and pacifist networks on the other and it opens a window to processes of professionalization the development of a humanitarian market place and the complex relationship of religious and secular strands in the history of international relief
