Securities Regulation Thomas Lee Hazen, 2006-11-30 An abridged version of Hazen's Selected Statutes for instructors who do not require the comprehensive treatment in the standard edition. The abridged version contains sufficient materials from most introductory securities regulation classes. The standard edition of Hazen's 2007 Securities Regulation Selected Statutes contains the latest SEC rulemaking including its new executive compensation disclosures that are not available in most other statutory supplements. Hazen's Selected Statutes is comprehensive and presented in readable format and the index make the material more accessible than in other statutory supplements. It includes new rules and forms adopted through September 15, 2006. While containing all of the statutes and rules needed for both basic and advanced courses in securities regulation, Hazen's Selected Statutes has more user-friendly features than the competition, including single rather than double column format. Also unlike other statutory supplements on the subject, Hazen's Selected Statutes contains a helpful index to make it easier for students to locate statutes and rules. **Securities Regulation** James D. Cox, Donald C. Langevoort, 2021-07-21 Securities Regulation Selected Statutes Rules and Forms 2021 Edition **Transnational Securities Regulation** Antonio Marcacci, 2022-11-25 The book provides an analysis of the emergence, evolution, and transformation of transnational securities regulation and of the influences from and the interactions between global regulatory powers in the field. Combining insights from law and political science, the work employs a two-tier complementary on-the-books and in-action approach. The more classical on-the-books approach draws on scholarship in United States and European Union securities regulation, transnational regulation, and global administrative law. Regime complexity, global governance studies, and the regulatory production of the International Organisation of Securities Commissions (IOSCO). The law-in-action approach leverages the author's experience as Compliance senior professional in a multinational financial institution, as well as research interviews with senior IOSCO staff. The author's findings enable the reader to develop an original understanding of IOSCO, its standards, and its unique place in the transnational regulatory arena. They also challenge the doxa that the US are the only driving regulatory power in the securities area when, in fact, other regulatory powers are emerging for the time being: the EU. The balance has shifted, and regulatory compromises are achieved at different points in the rule-making process.
