HYPNOTIZE YOURSELF AND OTHERS BUT DIDN'T KNOW WHOM TO ASK C. J. Mozzochi Ph.D.,2025-06-26 Part I The purpose of this part of the monograph is to discuss the hypnotic response and to present two methods for achieving it Part II The purpose of this part of the monograph is to outline an extremely effective procedure for obtaining self control through the use of tape recordings which you can easily make yourself This part of the monograph contains a new idea for although the idea of giving commands to oneself directly without the formal use of hypnosis goes back at least to Cou c 1920 and no doubt much farther a careful search of the literature seems to indicate that the idea of programming by means of the repeated use of a recording the subconscious mind to respond directly to arbitrary commands from the conscious mind is original with the author and consistent with the conclusions of other researchers His method helps a person realize his or her potential in what appears to be an innate ability *The Art of Hypnotherapy* C Roy Hunter,2010-07-01 Now in it s fourth edition this classic text presents a comprehensive overview of client centred hypnosis based on the teachings of Charles
