Cemeteries and Graveyards Celia Heritage, 2022-05-05 This comprehensive and fascinating guide from genealogist and historian Celia Heritage will prove indispensable for both local and family historians. A wide ranging examination of historical and archaeological findings means that the book will also appeal to anyone with an interest in death and burial. Celia throws light on changing social attitudes to death and burial from pre historic times to the modern day, investigates the origins and evolution of cemeteries and graveyards and discusses the many different types of graves and memorials as well as looking at how memorial designs have changed. One chapter takes an in depth look at the origins of the parish churchyard while another looks at graveyards associated with nonconformist churches and institutions including workhouses, asylums, hospitals and gaols. Celia details a wide range of online and offline sources that will help locate burials and memorials, also offering vital advice regarding good research practice. There is plenty of detail about less well known genealogy sources such as records relating to re interment undertakers and stonemasons records together with better known sources such as burial registers and memorial inscriptions. Throughout there is a wide range of hands on case studies which bring the subject to life and put it right into the hands of the researcher. This is far more than just genealogy and Celia portrays this fascinating subject from the view of both historian and archaeologist.

Churches and Churchyards of England and Wales Richard Hayman, 2019-05-30 The parish church is a symbol of continuity, a cornerstone of the urban and rural landscape and a treasure trove often as rich in cultural history as any museum. This compact and accessible guide explores all of these aspects of the parish church, beginning by examining why churches are built where they are and going on to explain how both church buildings and churchyards have changed over time. It also describes their fixtures and furnishings including fonts, screens, stained glass and monuments, explaining the ritual and symbolic purpose of these features and how their significance has shifted over time. Lavishly illustrated with colour photographs, this book will provide an indispensable primer for anyone who is curious about the nation's parish churches and wants to explore them further.

Country Church Monuments C. B. Newham, 2022-10-06 A landmark illustrated history of rural church monuments, the forgotten national treasures of England and Wales. Deep in the countryside, away from metropolitan abbeys and cathedrals, thousands of funerary monuments are hidden in parish churches. These artworks, medieval brasses and elegant marble effigies, stone tomb chests and grand mausoleums, are of great historical and cultural significance but have, due to their relative inaccessibility, faded from accounts of our art history. Over twenty five years, C. B. Newham FSA has visited and photographed more than eight thousand rural churches, cataloguing the monumental sculptures encountered on his quest. In *Country Church Monuments*, he presents 365 of the very best, each accompanied by detailed photographs, biographies of both the deceased and their sculptors, and a wealth of contextual material. Many of these works commemorate famous historical figures, from scheming Tudor courtier Richard Rich to Victorian prime minister William Ewart Gladstone. But more moving are the countless others, minor

aristocrats small time industrialists much loved mothers fathers and children who if not for their memorials would wholly be lost to time As Newham blows the dust off these artworks and breathes life into the stories they tell a new aesthetic history of rural England and Wales emerges Country Church Monuments is a poignant record of the art we make at the borders of life and death of our ceaseless human striving for eternity *The Archaeology of Post-medieval Religion* Chris King, Duncan Sayer, 2011 Evidence gleaned from archaeology sheds dramatic new light on religious practices and identities between the later sixteenth and the nineteenth centuries The post medieval period was one of profound religious and cultural change of sometimes violent religious conflict and of a dramatic growth in religious pluralism The essays collected here in what is the first book to focus on the material evidence demonstrate the significant contribution that archaeology can make to a deeper understanding of religion They take a broad interdisciplinary approach to the spatial and material context of religious life using buildings and landscapes religious objects and excavated cemeteries alongside cartographic and documentary sources to reveal the complexity of religious practices and identities in varied regions of post medieval Britain Europe and the wider world Topics covered include the transformation of religious buildings and landscapes in the centuries after the European Reformation the role of religious minorities and immigrant groups in early modern cities the architectural and landscape context of eighteenth and nineteenth century nonconformity and the development of post medieval burial practices and funerary customs Offering a unique perspective on the material remains of the post medieval period this volume will be of significant value to archaeologists and historians interested in the religious and cultural transformation of the early modern world Contributors Chris King Duncan Sayer Andrew Spicer Philippa Woodcock Matthias Range Simon Roffey Greig Parker Jeremy Lake Eric Berry Peter Herring Claire Strachan Peter Benes Diana Mahoney Swales Richard O'Neill Hugh Willmott Natasha Powers Adrian Miles Anwen Cedifor Caffell Rachel Clarke Rosie Morris Mortuary Monuments and Burial Grounds of the Historic Period Harold Mytum, 2012-12-06 Burial grounds strike an immediate chord with all who visit them They are landscapes full of pathos and cultural associations which many find attractive though a minority feel are too morbid to deserve detailed attention This book is designed to offer a framework for studying historic burial ground monuments and contains a certain amount of information regarding below ground archaeology as some projects will involve the study of both Moreover from a research perspective above and below ground archaeology together can throw considerable light on the process of dying body disposal and commemoration that formed a continuum for those involved However the more easily accessible graveyard memorials can be used to study many aspects of past culture beyond that directly associated with death and they are the focus of the book Most people who become interested in historic graveyard memorials come to the subject via the material itself Only rarely does a research question get posed and graveyard data seem like an appropriate arena for investigation This has the advantage that many researchers have some ideas about the data available but the disadvantage that they may not have clear questions to ask of it nor how to set their discoveries in a wider intellectual context The

Medieval Art, Architecture and Archaeology in the Dioceses of Aberdeen and Moray Jane Geddes, 2016-04-14 Exploring the medieval heritage of Aberdeenshire and Moray the essays in this volume contain insights and recent work presented at the British Archaeological Association Conference of 2014 based at Aberdeen University The opening historical chapters establish the political economic and administrative context of the region looking at both the secular and religious worlds and include an examination of Elgin Cathedral and the bishops palaces The discoveries at the excavations of the kirk of St Nicholas which have revealed the early origins of religious life in Aberdeen city are summarized and subsequent papers consider the role of patronage Patronage is explored in terms of architecture the dramas of the Reformation and its aftermath highlighted through essentially humble parish churches assailed by turbulent events and personalities The collegiate church at Cullen particularly its tomb sculpture provides an unusually detailed view of the spiritual and dynastic needs of its patrons The decoration of spectacular ceilings both carved and painted at St Machar s Cathedral Provost Skene s House and Crathes Castle are surveyed through the eyes of their patrons and the viewers below Saints and religious devotion feature in the last four chapters focusing on the carved wooden panels from Fetteresso which display both piety and a rare glimpse of Scottish medieval carnal humour the illuminated manuscripts from Arbuthnott the Aberdeen Breviary and Historia Gentis Scotorum The medieval artistic culture of north east Scotland is both battered by time and relatively little known With discerning interpretation this volume shows that much high quality material still survives while the lavish illustrations restore some glamour to this lost medieval world The Significance of Doorway Positions in English Medieval Parochial Churches and Chapels Geoffrey Sedlezky, 2023-08-24 This book analyses the positions of external church doorways in

England to investigate the significance that positioning had for the function and design of these buildings The author proposes a link between the design and function of parochial churches and chapels with the number and attributes of their doorways **An Inventory of the Ancient Monuments in Glamorgan: Pre-Norman. pt. 1.
