Dragons, Serpents, and Slayers in the Classical and Early Christian Worlds Daniel Ogden, 2013-05-30 Dragons Serpents and Slayers in the Classical and Early Christian Worlds offers a comprehensive and easily accessible collection of dragon myths from Greek Roman and early Christian sources *Dragon of Heaven* Du Cheng, 2020-04-10 A vampire ancestor a five clawed golden dragon a Flaming Mirror of Emperor a Sorrowful God Sword and a young man in white clothes floating over from Hua Xia stepping into the underworld with a sword In this great dark yellow world laughing at the buddhas of the world wanting to break the will of heaven to die to live to the end of time until the mountains and rivers are reborn until the universe is cleared the gods are silent the sky is clear the end of cultivation we cultivators will bear the burden of our hearts **Flying Serpents and Dragons** R. A. Boulay, 1999-07 A highly original work that deals a shattering blow to all our preconceived notions about our past and human origins Worldwide legends refer to giant flying lizards and dragons that came to this planet and founded the ancient civilizations of Mesopotamia Egypt India and China Who were these reptilian creatures What was the real reason for man's creation Why did Adam lose his chance at immortality in the Garden of Eden Who were the Nefilim who descended from heaven and mated with human women Why did the serpent take such a bad rap in history Why didn't Adam and Eve wear clothes What were the crystals or stones that the gods fought over Why did the ancient Sumerians call their major gods USHUMGAL which means literally great fiery flying serpent What were the boats of heaven in ancient Egypt and the sky chariots of the Bible This book tells it all *A Path into the Mountains* Caleb Swift Carter, 2022-05-31 Shugend has been an object of fascination among scholars and the general public yet its historical development remains an enigma This book offers a provocative reexamination of the social economic and spiritual terrain from which this mountain religious system arose Caleb Carter traces Shugend through the mountains of Togakushi Nagano Prefecture while situating it within the religious landscape of medieval and early modern Japan His is the first major study to view Shugend as a self conscious religious system something that was historically emergent but conceptually distinct from the prevailing Buddhist orders of medieval Japan Beyond Shugend his work rethinks a range of issues in the history of Japanese religions including exclusionary policies toward women the formation of Shinto and religion at the social and geographical margins of the Japanese archipelago Carter takes a new tack in the study of religions by tracking three recurrent and intersecting elements institution ritual and narrative Examination of origin accounts temple records gazetteers and iconography from Togakushi demonstrates how practitioners implemented storytelling new rituals and festivals and institutional measures to merge Shugend with their mountain's culture while establishing social legitimacy and economic security Indicative of early modern trends the case of Mount Togakushi reveals how Shugend moved from a patchwork of

regional communities into a translocal system of national scope eventually becoming Japan's signature mountain religion

Dragons Or Dinosaurs? Darek Isaacs, 2010 Dragon legends are found in nearly every culture around the globe. They have been thought to be myths. Yet mysteriously these dragons sound a lot like the other giant scaled reptiles dinosaurs. Could they be one and the same? Surprisingly enough the answer to this question is a powerful truth that confirms biblical authority and demolishes the theory of evolution.

The Serpent Column Paul Stephenson, 2016-07-01 The Serpent Column a bronze sculpture that has stood in Delphi and Constantinople today Istanbul is a Greek representation of the Near Eastern primordial combat myth. It is Typhon a dragon defeated by Zeus and also Python slain by Apollo. The column was created after the Battle of Plataia 479 BC where the sky was dominated by serpentine constellations and by the spiralling tails of the Milky Way. It was erected as a votive for Apollo and as a monument to the victory of the united Greek poleis over the Persians. It is as a victory monument that the column was transplanted to Constantinople and erected in the hippodrome. The column remained a monument to cosmic victory through centuries but also took on other meanings. Through the Byzantine centuries these interpretations were fundamentally Christian drawing upon serpentine imagery in Scripture, patristic and homiletic writings. When Byzantines saw the monument they reflected upon this multivalent serpentine symbolism but also the fact that it was a bronze column. For these observers it evoked the Temple's brazen pillars, Moses' brazen serpent, the serpentine tempter of Genesis, Satan and the beast of Revelation. The column was inserted into Christian sacred history symbolizing creation and the end times. The most enduring interpretation of the column which is unrelated to religion and therefore survived the Ottoman capture of the city is as a talisman against snakes and snake bites. It is this tale that was told by travellers to Constantinople throughout the Middle Ages and it is this story that is told to tourists today who visit Istanbul. In this book Paul Stephenson twists together multiple strands to relate the cultural biography of a unique monument.
