Natural Rebels A Social History Of Enslaved Women In Barbados:

Natural Rebels Hilary Beckles, 1989 Social economic and labor history of slave women in Barbados from the mid 17th to the mid 19th century **Natural Rebels** Hilary Beckles, 1989 social history of slavery **Unprofitable Servants** Alvin O. Thompson, 2002 A study of governmental slaves in Barbados from 1803 to 1831 The author illustrates that the imperial government arrived at the general abolition of slavery throughout its colonies in a rather ad hoc and piecemeal fashion He also raises questions about the government's commitment to abolition Gender and Slave Emancipation in the Atlantic World Pamela Scully, Diana Paton, 2005-10-04 A comparative perspective on the way ideas of gender relations and identities shaped the struggle over resources cultural practices and political rights that followed the end of slavery in the Atlantic world *Women and Slavery in the French Antilles, 1635-1848* Bernard Moitt, 2001-11-14 Women and Slavery in the French Antilles 1635 1848 Bernard Moitt Examines the reaction of black women to slavery In Women and Slavery in the French Antilles 1635 1848 Bernard Moitt argues that gender had a profound effect on the slave plantation system in the French Antilles He details and analyzes the social condition of enslaved black women in the plantation societies of Martinique Guadeloupe Saint Domingue now Haiti and French Guiana from 1635 to the abolition of slavery in the French colonial empire in 1848 Moitt examines the lives of black women in bondage evaluates the impact that the slave experience had on them and assesses the ways in which women reacted to and coped with slavery in the French Caribbean for over two centuries As males outnumbered females for most of the slavery period and monopolized virtually all of the specialized tasks the disregard for gender in task allocation meant that females did proportionately more hard labor than did males In addition to hard work in the fields women were engaged in gender specific labor and performed a host of other tasks Women resisted slavery in the same ways that men did as well as in ways that gender and allocation of tasks made possible Moitt casts slave women in dynamic roles previously ignored by historians thus bringing them out of the shadows of the plantation world into full view where they belong Bernard Moitt is Assistant Professor in the History Department at Virginia Commonwealth University in Richmond Previously he taught at the University of Toronto and at Utica College of Syracuse University Educated in Antigua where he was born Canada and the United States he has written on aspects of francophone African and Caribbean history with particular emphasis on gender and slavery Blacks in the Diaspora Darlene Clark Hine John McCluskey Jr David Barry Gaspar general editors June 2001 256 pages 6 1 x 9 1 4 index append cloth 0 253 33913 8 44 95 L 34 00 paper 0 253 21452 1 19 95 s 15 50 The Slaves' Economy Ira Berlin, Philip D. Morgan, 2016-01-20 Slaves achieved a degree of economic independence producing food tending cash crops raising livestock manufacturing furnished goods marketing their own products consuming and saving the proceeds and bequeathing property to their descendants The editors of this volume contend that the legacy of slavery cannot be understood without a full appreciation of the slaves economy **West Indian Slavery and British Abolition, 1783-1807** David Ryden, 2009-01-19 Ryden challenges conventional wisdom regarding the

political and economic motivations behind the final decision to abolish the British slave trade in 1807 His research illustrates that a faltering sugar economy after 1799 tipped the scales in favour of the abolitionist argument and helped secure the passage of abolition

The Politics of Reproduction Katherine Paugh, 2017-04-21 Many British politicians planters and doctors attempted to exploit the fertility of Afro Caribbean women s bodies in order to ensure the economic success of the British Empire during the age of abolition Abolitionist reformers hoped that a homegrown labor force would end the need for the Atlantic slave trade By establishing the ubiquity of visions of fertility and subsequent economic growth during this time The Politics of Reproduction sheds fresh light on the oft debated question of whether abolitionism was understood by contemporaries as economically beneficial to the plantation colonies At the same time Katherine Paugh makes novel assertions about the importance of Britain s Caribbean colonies in the emergence of population as a political problem The need to manipulate the labor market on Caribbean plantations led to the creation of new governmental strategies for managing sex and childbearing such as centralized nurseries discouragement of extended breastfeeding and financial incentives for childbearing that have become commonplace in our modern world While assessing the politics of reproduction in the British Empire and its Caribbean colonies in relationship to major political events such as the Haitian Revolution the study also focuses in on the island of Barbados The remarkable story of an enslaved midwife and her family illustrates how plantation management policies designed to promote fertility affected Afro Caribbean women during the late eighteenth and early nineteenth centuries The Politics of Reproduction draws on a wide variety of sources including debates in the British Parliament and the Barbados House of Assembly the records of Barbadian plantations tracts about plantation management published by doctors and plantation owners and missionary records related to the island of Barbados

Sugar in the Blood Andrea Stuart, 2013-01-22 In the late 1630s lured by the promise of the New World Andrea Stuart s earliest known maternal ancestor George Ashby set sail from England to settle in Barbados He fell into the life of a sugar plantation owner by mere chance but by the time he harvested his first crop a revolution was fully under way the farming of sugar cane and the swiftly increasing demands for sugar worldwide would not only lift George Ashby from abject poverty and shape the lives of his descendants but it would also bind together ambitious white entrepreneurs and enslaved black workers in a strangling embrace Stuart uses her own family story from the seventeenth century through the present as the pivot for this epic tale of migration settlement survival slavery and the making of the Americas As it grew the sugar trade enriched Europe as never before financing the Industrial Revolution and fuelling the Enlightenment And as well it became the basis of many economies in South America played an important part in the evolution of the United States as a world power and transformed the Caribbean into an archipelago of riches But this sweet and hugely profitable trade white gold as it was known had profoundly less palatable consequences in its precipitation of the enslavement of Africans to work the fields on the islands and ultimately throughout the American continents Interspersing the tectonic shifts of colonial history with her family s experience Stuart

explores the interconnected themes of settlement sugar and slavery with extraordinary subtlety and sensitivity In examining how these forces shaped her own family its genealogy intimate relationships circumstances of birth varying hues of skin she illuminates how her family among millions of others like it in turn transformed the society in which they lived and how that interchange continues to this day Shifting between personal and global history Stuart gives us a deepened understanding of the connections between continents between black and white between men and women between the free and the enslaved It is a story brought to life with riveting and unparalleled immediacy a story of fundamental importance to the making of our world
