[Designing Naturalistic Landscape](#) Julietta Zawislak, 2021-08-20 All around the world cities

have seen wildlife return to areas where tourists aren't crowding them out this year. It's a beautiful reminder that nature is a powerhouse left untamed; the natural world will create its own sense of balance and beauty. Rather than fight these forces, a wonderful way to design your home garden is to embrace what nature does best and let your landscaping run wild with a naturalistic feel. This book explains the principles by which Nature, the ultimate artist, arranges plants in the wild. Home gardeners and habitat restoration ecologists alike can use this booklet as a guide in the noble effort to enhance or restore some of our land-scraped environment.
