The Vanishing American Dream Virginia Deane Abernethy,2017-09-08 The United States has gone off track allowing domestic and foreign aid policies to be co opted by a government abetted by mass media that serves special interests rather than the greater national good Americans tendencies to trust play fair and help have been abused and require replacement by a realistic outlook The Vanishing American Dream posits solutions to get America back on the right track Abernethy sees population growth driven by mass immigration as a major cause of economic and cultural changes that have been detrimental to most Americans The environment has been degraded by over crowding and increasing demands on natural resources Work is cheapened by explosive growth in the labour force creating a buyer s market One salary or wage no longer supports a family and educates children Women working outside the home is a necessity not a choice for most American families Furthermore feminism aimed originally at balanced gender roles has been turned viciously against males of all ages and ultimately against females through degrading their traditional and valuable contributions Abernethy proposes

that Americans need time to regroup untroubled by a continuing influx of foreign peoples The family small business and responsive local government are centres around which a solvent and confident citizenry can prosper again **Introduction to Policing** Steven M.
