Prevention Compensation Transboundary Cross Border Pipelines:

Liability for Transboundary Pollution at the Intersection of Public and Private International Law Guillaume Laganière, 2022-02-24 This book focuses on how public and private international law address civil liability for transboundary pollution In public international law civil liability treaties promote the implementation of minimum procedural standards in domestic tort law This approach implicitly relies on private international law to facilitate civil litigation against transboundary polluters Yet this connection remains poorly understood Filling the gap this book engages in a meaningful dialogue between the two areas and explores how domestic private international law can reflect the policies developed in international environmental law It begins with an investigation of civil liability in international environmental law It then identifies preferable rules of civil jurisdiction foreign judgments and choice of law for environmental damage using Canadian private international law as a case study and making extensive references to European law Liability for transboundary pollution is a contentious issue of the law both in scholarship and practice international lawyers both private and public as well as environmental lawyers will welcome this important work *Energy Law, Climate Change and the Environment* Martha M. Roggenkamp, Kars J. de Graaf, Ruven C. Congress, 1996 **Congressional Record Index** ,1996 Includes history of bills and resolutions *Annual Report for ...* Asian Development Bank, 1967
