The World Bank Group A to Z World Bank Group,2014-09-30 The World Bank Group A to Z provides ready reference insight into the history mission organization policies financial services and knowledge products of the world s largest anti poverty institution

The World Bank and the Gods of Lending Steve Berkman,2008 Uncovering the World Bank s loan programs in the developing world in The World Bank and the Gods of Lending author Steve Berkman finds nothing but mismanagement and hypocrisy decades of assistance without any significant improvement in the lives of the poor billions loaned for improving governance health care and education with little to show for it and donor funds given to dysfunctional government institutions or officials with a history of looting national treasuries With sixteen years as a Bank staff member and consultant Berkman presents compelling evidence of deceptive reporting and lack of due diligence as billions of dollars are wasted every year on corrupt and ill conceived programs Using internal reports and memos project documents and the Bank s Annual Reports as reference Berkman demonstrates management s obsession with lending despite the high fiduciary risks involved Taking the reader inside several project fraud investigations he exposes the ease with which funds can be stolen from the Bank s portfolio and the degree to which these thefts are ignored Painting a picture of an institution that is run by a bloated bureaucracy The World Bank and the Gods of Lending proposes changes that will rouse the Bank from its bureaucratic complacency and restore its central mission of alleviating poverty

The World Bank Group's Partnership with the Global Environment Facility The World Bank,2015-11-18 The World Bank Group was a principal founding partner of the Global Environment Facility GEF in its pilot phase in 1991 and of the restructured GEF in 1994 The Bank plays three different roles in the GEF a as trustee of the GEF and related trust funds b as implementing agency including the implementation of private sector GEF projects by the International Finance Corporation IFC and c as the host organization of the functionally independent GEF secretariat Focusing primarily on the role of the Bank as an implementing agency this review documents how the partnership that the GEF and the World Bank Group established in the early 1990s has evolved over time offers explanations for observed changes and draws a number of lessons The review addresses the following issues The mutual relevance of the World Bank Group and the GEF Inter organizational coordination along the World Bank Group GEF project cycle The introduction of the GEF s resource allocation systems in 2006 and 2010 The evolution and effectiveness of the Bank Group s GEF portfolio Catalytic approaches in the Bank Group GEF partnership co financing blending and mainstreaming The World Bank s corporate activities as a GEF implementing agency The principal purposes of this review are a to help improve the relevance and effectiveness of the Bank Group s partnership with the GEF and b to draw lessons for the Bank Group s partnership with the GEF and other large global partnership programs

The Urban Rail Development Handbook Daniel Pulido,Georges Darido,Ramon Munoz-Raskin,Joanna Moody,2018-09-20 Cities across the globe are looking to develop affordable environmentally friendly and socially responsible transportation solutions that

can meet the accessibility needs of expanding metropolitan populations and support future economic and urban development. When appropriately planned and properly implemented as part of a larger public transportation network, urban rail systems can provide rapid mobility and vital access to city centers from surrounding districts. High performing urban rail services, when carefully approached as development projects, can help enhance quality of life by giving citizens access to employment opportunities, essential services, urban amenities, and neighboring communities. The purpose of this Handbook is to synthesize and disseminate knowledge to inform the planning, implementation, and operations of urban rail projects with a view towards:

- Emphasizing the need for early studies and project planning.
- Making projects more sustainable economically, socially, and environmentally.
- Improving socioeconomic returns and access to opportunities for users.
- Maximizing the value of private participation where appropriate.
- Building capacity within project implementing and managing institutions.

This Handbook provides experiential advice to tackle the technical, institutional, and financial challenges faced by decision makers considering urban rail projects. It brings together the expertise of World Bank staff and the input of numerous specialists to synthesize international good practices and recommendations that are independent of commercial, financial, political, or other interests. The material presented is intended as an honest broker guide to maximize the impact and manage the challenges of urban rail systems in cities in both developed and developing countries. Rather than identify a single approach, this Handbook acknowledges the complexities and context necessary when approaching an urban rail development by helping to prepare decision makers to ask the right questions, consider the key issues, perform the necessary studies, apply adequate tools, and learn from international good practice all at the right time in the project development process.

Improving Municipal Solid Waste Management in India P U Asnani, Chris Zurbrugg, 2007-11-30

Solid Waste Management (SWM) is a matter of great concern in the urban areas of developing countries. The municipal authorities who are responsible for managing municipal solid waste are unable to discharge their obligations effectively because they lack the in-house capacity to handle the complexities of the process. It is heartening to see that the World Bank has prepared this book covering all important aspects of municipal SWM in great depth. The book covers very lucidly the present scenario of SWM in urban areas, the system deficiencies that exist, and the steps that need to be taken to correct SWM practices in compliance with Municipal Solid Waste Management and Handling Rules 2000, ratified by the Government of India. The book shares examples of best practices adopted in various parts of the country and abroad and very appropriately covers the institutional, financial, social, and legal aspects of solid waste management, which are essential for sustainability of the system. It provides a good insight on how to involve the community, nongovernmental organizations, and the private sector to help improve the efficiency and cost effectiveness of the service and shows how contracting mechanisms can be used to involve the private sector in SWM services. This book will be a very useful tool for city managers and various stakeholders who deal with municipal solid waste management in the design and execution of appropriate and cost-effective systems.
