written to improve children's behavior and foster academic and personal success. It is a revolutionary book in its approach. Rather than teaching children to meet parents and teachers' expectations, the book gives examples and strategies of how to notice and meet each child's specific needs. Once these needs are met, a child can make positive choices for him or herself. Safe, Unique, and Loved is a behavior strategy for parents and teachers that allows a child to take ownership of his or her own success. This ownership is made possible by the adults in the child's life paying attention to what he or she needs. After raising her two sons and teaching both at home and in the classroom for over twenty years, Amy Dockery Fields formulated this simple and effective method for helping children behave positively. It has proven successful for over 800 students and their families over the years.
