Mathematics Curriculum in School Education Yeping Li, Glenda Lappan, 2013-11-19 Mathematics curriculum which is often a focus in education reforms has not received extensive research attention until recently. Ongoing mathematics curriculum changes in many education systems call for further research and sharing of effective curriculum policies and practices that can help lead to the improvement of school education. This book provides a unique international perspective on diverse curriculum issues and practices in different education systems, offering a comprehensive picture of various stages along curriculum transformation from the intended to the achieved and showing how curriculum changes in various stages contribute to mathematics teaching and learning in different educational systems and cultural contexts. The book is organized to help readers learn not only from reading individual chapters but also from reading across chapters and sections to explore broader themes including: Identifying what is important in mathematics for teaching and learning in different education systems; Understanding mathematics curriculum and its changes that are valued over time in different education systems; Identifying and analyzing effective curriculum practices; Probing effective infrastructure for curriculum development and implementation. *Mathematics Curriculum in School Education* brings new insights into curriculum policies and practices to the international community of mathematics education with 29 chapters and four section prefaces contributed by 56 scholars from 14 different education systems. This rich collection is indispensable reading for mathematics educators, researchers, curriculum developers, and graduate students interested in learning about recent curriculum development research and practices in different education systems. It will help readers to reflect on curriculum policies and practices in their own education systems and also inspire them to identify and further explore new areas of curriculum research for improving mathematics teaching and learning. *Mathematics Teacher Resource Handbook*, 1993

Home Learning Year by Year Rebecca Rupp, 2009-02-04 Finally, homeschoolers have a comprehensive guide to designing a homeschool curriculum from one of the country's foremost homeschooling experts. Rebecca Rupp presents a structured plan to ensure that your children will learn what they need to know when they need to know it from preschool through high school. Based on the traditional pre-K through 12th grade structure, *Home Learning Year by Year* features: The integral subjects to be covered within each grade; Standards for knowledge that should be acquired by your child at each level; Recommended books to use as texts for every subject; Guidelines for the importance of each topic, which knowledge is essential and which is best for more expansive study based on your child's personal interests; Suggestions for how to sensitively approach less academic subjects such as sex education and physical fitness. *Catalog of Copyright Entries.
