Once There Were Two True Friends, Or, Idealized Male Friendship in French Narrative from the Middle Ages Through the Enlightenment Edward Joe Johnson, 2003 **Heroines and Local Girls** Pamela L. Cheek, 2019-08-30

Over the course of the long eighteenth century a network of some fifty women writers working in French English Dutch and German staked out a lasting position in the European literary field These writers were multilingual and lived for many years outside of their countries of origin translated and borrowed from each others works attended literary circles and salons and fashioned a transnational women s literature characterized by highly recognizable codes Drawing on a literary geography of national types women writers across Western Europe read translated wrote and rewrote stories about exceptional young women literary heroines who transcend the gendered destiny of their distinctive cultural and national contexts These transcultural heroines struggle against the cultural constraints determining the sexualized fates of local girls In *Heroines and Local Girls* Pamela L Cheek explores the rise of women s writing as a distinct transnational category in Britain and Europe between 1650 and 1810 Starting with an account of a remarkable tea party that brought together Frances Burney Sophie von La Roche and Marie Elisabeth de La Fite in conversation about St phanie de Genlis she excavates a complex community of European and British women authors In chapters that incorporate history network theory and feminist literary history she examines the century and a half literary lineage connecting Madame de Maintenon to Mary Wollstonecraft including Charlotte Lennox and Fran oise de Graffigny and their radical responses to sexual violence Neither simply a reaction to nor collusion with patriarchal and national literary forms but rather both women s writing offered an invitation to group membership through a literary project of self transformation In so doing argues Cheek women s writing was the first modern literary category to capitalize transnationally on the virtue of identity anticipating the global literary marketplace s segmentation of affinity based reading publics and continuing to define women s writing to this day
