Production Variance Analysis In Sap Controlling:

Production Variance Analysis in SAP Controlling John Jordan, 2011 *A Practical Guide to Manufacturing Variances in SAP S/4HANA* Tom King, 2021-09-08 Manufacturing companies need to put a large amount of effort into controlling variances in production. The SAP S/4HANA system provides many tools for highlighting and reviewing these variances. In this book, explore the sources of manufacturing order costs and how they interact to generate variances. Look into target cost versions and learn how different views of variances can give each stakeholder a fuller understanding of non-conformance in manufacturing. Review strategies for setting up the reporting tools to give the most actionable information. Learn some tips for analyzing reporting needs and how to keep the information fresh and meaningful. Understand the interaction between manufacturing orders and cost centers in order to see the big picture of manufacturing performance. Look into the period-end tasks required for order settlement and see how that impacts views of variances. Get an overview of the important configuration tasks. Learn about how SAP Manufacturing and Controlling modules interact. Sources of target and actual costs used to determine variances. How manufacturing reporting affects cost center accounting. Strategies for interpreting and managing variances in manufacturing.

Practical Guide to SAP CO-PC (Product Cost Controlling) in SAP S/4HANA - 2nd edition Tanya Duncan, 2024-03-19 Because of its complex integration, Product Cost Controlling (CO-PC) has often been regarded as the most challenging module in SAP ERP. In this 2nd edition, the most important concepts, business processes, and configuration settings have been updated to cover SAP S/4HANA, including how the Material Ledger has evolved in S/4HANA. There is also a new chapter on sales order costing. By concentrating only on the essentials, this book can be easily used as a supplementary guide for readers who are implementing or supporting SAP CO-PC. Transaction and configuration screenshots have been included to illustrate processes and concepts covered in this book, and Fiori app names and GUI transaction codes have also been provided. In addition, this guide examines the integration of CO-PC with other modules and offers helpful tips to consider during implementation. Introduction to value flows in SAP S/4HANA Controlling Step by step examples Configuration for make to stock and make to order costing Detailed month-end closing processes

Value Flows into SAP Margin Analysis (CO-PA) in S/4HANA Stefan Eifler, Christoph Theis, This practical manual guides you step by step through the flows of actual values into SAP Profitability Analysis CO PA and the forms these flows take in S/4HANA including the account based CO PA required there. The book presents the technical prerequisites and changes that SAP S/4HANA brings compared to the previous product ERP and discusses whether there is any truth in rumors such as The Controlling module will no longer exist. Using a simple continuous example the authors who have many years of experience with SAP Controlling illustrate how an SAP value flow progresses through the individual stages of the process from a sales order through production right up to the issue of goods and invoicing. The book shows where you will find these values at each respective point in time in Financials FI and Controlling CO. The authors explain both the business and the SAP technical view in detail and highlight the benefits of the innovative approach under S/4HANA now known under the new name of SAP Margin Analysis. Furthermore the book delivers a plea for CO PA to be used as a tool for sales management a tool that allows the widest possible variety of business analyses. Value flows based on the logistical sales and production process. Comparison of costing based and account based CO PA. Presentation of the changes in the value flow compared to SAP ERP. Continuous numerical example right up to closing activities.

Practical Guide to SAP S/4HANA Controlling Nora Voigt, 2022-10-06 With SAP Fiori SAP S/4HANA offers a modern user interface and a simplified new technical data model. The objectives are faster closing and improved performance for reconciliation activities. Using an example manufacturing company this book presents the resulting new features for the area of Controlling. In addition to the process related view of the workflows within the company the book takes a practical look at the SAP Fiori apps in Controlling. You quickly get an overview of the most important innovations changed. Customizing settings and current developments in all subcomponents in SAP S/4HANA Controlling. Readers who do not have much experience with HANA yet can first familiarize themselves with the new SAP Fiori interface before turning to the new simplified data structures of S/4HANA in Financials and Controlling as well as the changes to master data and processes. You then follow the example company SPEED GmbH through central structures and processes in Product Cost Controlling.
