Progress in Intercalation Research H.W. de Jong,1993-03-31 If a book needs a third edition because the previous ones are sold out one may well question whether an introduction is necessary However the Structure of European Industry was meant to be a flexible book keeping it in tune with actual developments in the European Community Some explanation is therefore required Two new chapters on the services industry have been included to recognize the growing importance of what is fundamentally a bundle of industries It is also increasingly acknowledged that the motorcar industry for its efficiency and innovativeness is very much dependent on the numerous suppliers large and small of the component parts industry A chapter reflecting on the strengths and weaknesses of the European car supplying industries is therefore most welcome Finally European competition policy now fitted out with the Merger Control Regulation is moving more and more towards the centre of stage and the final chapter presents a survey of the aims and achievements of this type of policy up till now steadfastly developed by the EC Commission For the rest the chapters which were already in the previous edition have been updated and have partly been rewritten by the authors concerned The editor is most grateful to old and new contributors for their efforts to jointly produce a book which after 12 years is still unique in providing a European instead of a national focus on industries and markets *SME Policy Index: Western Balkans and Turkey 2012 Progress in the Implementation of the Small Business Act for Europe* OECD,European Bank for Reconstruction and Development,European Training Foundation,European Union,2012-12-05 This book provides a comparative overview across the region for SME policy development **Bureau of Land Management plan needed to sustain progress in establishing IT investment management capabilities.** ,
